this is a packt cookbook full with over 75 recipes for vmm users to carry out vital tasks quickly and easily this book is written for solutions architects technical consultants administrators and any other virtualization lover who needs to use microsoft system center virtual machine manager in a real world environment

the quality your customers really need inevitably differs from the quality as prescribed in specifications rules and regulations the author s message is in short to be aware of this fact in all quality related issues quality as required by fitness for purpose can be in conflict with quality according to prevailing specifications rules and regulations it is then in the interest of the buyer to agree with the supplier on desirable exemptions but often we can see that the supplier chooses the easy way out of just complying with the contract specifications without caring too much about the particular interests of the customer in the damen shipyards group we try to induce a corporate culture of always paying attention to the interests of our customers and making serious efforts to serve those interests also when there is no contractual obligation to do so this book constitutes a welcome means to spread this word throughout the entire organisation i wholeheartedly recommend it to whoever wishes to be a genuine quality supplier from publisher s provided
