it is often said that education and training are the keys to the future they are but a key can be turned in two directions turn it one way and you lock resources away even from those they belong to turn it the other way and you release resources and give people back to themselves to realize our true creative potential in our organizations in our schools and in our communities we need to think differently about ourselves and to act differently towards each other we must learn to be creative ken robinson praise for out of our minds ken robinson writes brilliantly about the different ways in which creativity is undervalued and ignored especially in our educational systems john cleese out of our minds explains why being creative in today's world is a vital necessity this book is not to be missed ken blanchard co author of the one minute manager and the secret if ever there was a time when creativity was necessary for the survival and growth of any organization it is now this book more than any other i know provides important insights on how leaders can evoke and sustain those creative juices warren bennis distinguished professor of business university of southern california thomas s murphy distinguished research fellow harvard business school best selling author geeks and geezers all corporate leaders should read this book richard scase author and business forecaster this really is a remarkable book it does for human resources what rachel carson's silent spring did for the environment wally olins founder wolff olins books about creativity are not always creative ken robinson's is a welcome exception mihaly csikszentmihalyi c s and d j davidson professor of psychology claremont graduate university director quality of life research center best selling author flow the best analysis i've seen of the disjunction between the kinds of intelligence that we have traditionally honored in schools and the kinds of creativity that we need today in our organizations and our society howard gardner a hobbs professor in cognition and education harvard graduate school of education best selling author frames of mind

the first edition of engines of discovery celebrated in words images and anecdotes the accelerators and their constructors that culminated in the discovery of the higgs boson but even before the higgs was discovered before the champagne corks popped and while the television producers brushed up their quantum mechanics a new wave of enthusiasm for accelerators to be applied for more practical purposes was gaining momentum almost all fields of human endeavour will be enhanced by this trend energy conservation medical diagnostics and treatment national security as well as industrial processing accelerators have been used most spectacularly to reveal the structure of the complex molecules that determine our metabolism and life for every accelerator chasing the higgs there are now ten thousand serving other purposes it is high time to move from abstract mathematics and philosophy to the practical needs of humankind it is the aim of this revised and expanded edition to describe this revolution in a manner which will attract the young not only to apply their curiosity to the building blocks of matter but to help them contribute to the improvement of the quality of life itself on this planet as always the authors have tried to avoid lengthy mathematical description in describing a field which reaches out to almost all of today's cutting edge technology some detailed explanation cannot be avoided but this has been confined to sidebars references guide experts to move on to the journal reviews of accelerator science and technology and other publications for more information but first we would urge every young physicist teacher journalist and politician to read this book

a revolutionary reappraisal of how to educate our children and young people by ken robinson the new york times bestselling author of the element and finding your element ken robinson is one of the world's most influential voices in education and his 2006 ted talk on the subject is the most viewed in the organization's history now the internationally recognized leader on creativity and human potential focuses on one of the most critical issues of our time how to transform the nation's troubled educational system at a time when standardized testing businesses are raking in huge profits when many schools are struggling and students and educators everywhere are suffering under

the strain robinson points the way forward he argues for an end to our outmoded industrial educational system and proposes a highly personalized organic approach that draws on today's unprecedented technological and professional resources to engage all students develop their love of learning and enable them to face the real challenges of the twenty first century filled with anecdotes observations and recommendations from professionals on the front line of transformative education case histories and groundbreaking research and written with robinson's trademark wit and engaging style creative schools will inspire teachers parents and policy makers alike to rethink the real nature and purpose of education
