una de las frustraciones que el investigador tiene que asumir es que no va a decir la última palabra de ningún aspecto del tema que está trabajando en el mejor de los casos puede aportar algo al caudal de conocimiento que es la investigación científica en ciencias sociales en plena investigación para la tesis es inevitable tener la sensación de encontrarse en un edificio y cada vez que abre una puerta se encuentra con una gran habitación o en la mayoría de los casos con un pasillo que conduce a muchas puertas es una labor importante delimitar la investigación y reconocer que siempre nos han quedado cosas por decir y claro aspectos que desconocemos esta tesis doctoral se enmarca en la corriente de acercar la universidad y el mundo de las organizaciones más concretamente las empresas mundos que antes tendían a separarse desde la ignorancia mutua ahora han tendido muchos puentes entre investigaciones científicas que pueden generar negocio y negocios que deben atender a las aportaciones de las investigaciones científicas queda mucho por recorrer pero hemos de reconocer que parte del camino se ha andado y el diálogo entre ambas orillas hoy es mucho más fácil una facción de mi actividad profesional consiste en realizar entrevistas de coaching y hacerlo en las empresas tener una perspectiva teórica o un modelo es una parte del trabajo la otra parte consiste en obtener resultados tanto en la actividad del coachee como en el propio coachee el potencial se demuestra siendo más eficaz pero también buscaba una perspectiva desde el mundo de la universidad yendo más allá de los libros de aeropuerto y auto ayuda que tanto espantan en el mundo académico y la perspectiva académica era la de la psicología social qué constructos y conceptos de nuestra disciplina podían enriquecer la metodología y las sesiones de coaching para ello recurrí a una metodología cualitativa que se generaba a partir del análisis de las entrevistas a coaches y coachees agrupando las categorías y conceptos que aparecían en las mismas una de las conclusiones que me pareció más relevante era el caso omiso que coach y coachee hacían de la cultura organizativa en la que se encontraban de alguna manera la deban por supuesta o por decirlo con lenguaje de

empresa por descontada esto puede provocar muchos problemas y explicar algunas situaciones que se daban en algunos procesos de coaching la tesis doctoral aborda muchos aspectos del coaching la psicología social y las empresas confío en que su lectura sea amena sin renunciar a las exigencias del rigor académico

rituals are closely linked with culture this book is a consideration of christian ritual in our culture it was originally written particularly with an eye to the ritual developments in the netherlands which can be considered as representative for our western european culture it has been revised and expanded for the english edition as in other european countries in the 1960s dutch society witnessed a serious crisis in ritual the situation was paradoxical while under the influence of the second vatican council and the liturgical movement in the catholic churches there was a great creativity with regard to ritual ritual was gradually disappearing from the society at large and participation in christian ritual was rapidly draining away a religious void arose however since then the situation has changed fundamentally rituals were rediscovered in the 1990s indeed to such an extent that one can now speak of rituals in abundance in this book the author sketches out the directions and sets out signposts for

where ritual is going in contemporary culture he traces the peculiar characteristics of ritual indicates what shifts have taken place and tries to further define the identity of various rituals in doing this he concentrates on the question of the place of christian ritual in our culture how is christian ritual connected with the many rites in our culture what new shape is it taking on in our culture in the midst of the other rites what is the peculiar identity of christian ritual in this book the accent is on the anthropological approach to christian ritual it works from the bottom up the book seeks answers to the questions being asked in the discipline of ritual studies which particularly since the second half of the 1980s has arisen as an important realm or stage on which different disciplines studying ritual come together
