as the 21st century gets into stride so does the call for a discipline combining culture and translation this second edition of translating cultures retains its original aim of putting some rigour and coherence into these fashionable words and lays the foundation for such a discipline this edition has not only been thoroughly revised but it has also been expanded in particular a new chapter has been added which focuses specifically on training translators for translational and intercultural competencies the core of the book provides a model for teaching culture to translators interpreters and other mediators

it introduces the reader to current understanding about culture and aims to raise awareness of the fundamental role of culture in constructing perceiving and translating reality culture is perceived throughout as a system for orienting experience and a basic presupposition is that the organization of experience is not reality but rather a simplified model and a distortion which varies from culture to culture each culture acts as a frame within which external signs or reality are interpreted the approach is interdisciplinary taking ideas from contemporary translation theory anthropology bateson's logical typing and metamessage theories bandler and grinder's nlp meta model theory and halliday's functional grammar authentic texts and translations are offered to illustrate the various strategies that a cultural mediator can adopt in order to make the different cultural frames he or she is mediating between more explicit

translating change explores and analyses the impact of changes in society culture and language on the translation and interpreting process and product it looks at how social attitudes behaviours and values change over time how languages respond to these changes how these changes are reflected in the processing and production of translations and how technological change and economic uncertainty in the wake of events such as the covid 19 pandemic and brexit affect the translation market the authors examine trends in language change in english french german italian and spanish the highly topical approach to social cultural and language change is predominantly synchronic and pragmatic based on tracking and analysing language changes and trends as they have developed and continue to do so this is combined with an innovative section on developing transferable translation related skills including writing and rewriting editing abstracting transcreation and summary writing in view of a perceived need to expand the skills portfolio of translators in a changing market and at the same time to maximise translation quality each chapter features pause for thought activity boxes to encourage active reader participation or reflection with exercises discussion questions guided further reading throughout and a glossary of key terms this innovative textbook is key reading for both students and translators or interpreters in training and in practice

this volume brings both beginning and experienced translators and interpreters up to date on a broad range of issues the seven sections take up success and survival strategies for a language professional including the challenges posed by the changing global economy the impact of new technologies adjustments required by a different legal environment and traditional ethical practices such challenges and changes point to a need for continuing education and networking and for newcomers specialized postsecondary training the issues are as broad as the translator and interpreter's role in the modern world as detailed as advice on setting up a workstation or choosing a degree program the contributors all practicing translators and interpreters discuss also the value of the association and its committees to the

profession and its individual members

this engaging and accessible textbook by two leading experts is a carefully crafted introduction to linguistics for translators students and researchers of translation starting with basic concepts and gradually moving readers to the central questions in different branches of linguistics examples are drawn from english and many other languages including german arabic kurdish swahili french and chinese the key areas of linguistics are covered from morphology and syntax to semantics pragmatics discourse analysis stylistics sociolinguistics and cognitive linguistics striking a balance between theoretical developments and empirical investigation readers gain both a comprehensive overview of linguistics and how it informs their work in translation and learn how to argue for analysis and annotate their own answers and translations academically each chapter provides the reader with an overview outlining the main points and technical words used in the chapter as well as illustrative examples recommended readings and resources and activities to test knowledge this is the ideal textbook for undergraduate and postgraduate students of translation in translation studies linguistics and modern languages

this is the fifth revised edition of the best selling a practical guide for translators it looks at the profession of translator on the basis of developments over the last few years and encourages both practitioners and buyers of translation services to view translation as a highly qualified skilled profession and not just a cost led word mill the book is intended principally for those who have little or no practical experience of translation in a commercial environment it offers comprehensive advice on all aspects relevant to the would be translator and whilst intended mainly for those who wish to go

freelance it is also relevant to the staff translator as a guide to organisation of work and time advice is given on how to set up as a translator from the purchase of equipment to the acquisition of clients the process of translation is discussed from initial enquiry to delivery of the finished product hints are given on how to assess requirements how to charge for work how to research and use source material and how to present the finished product guidance is given on where to obtain further advice and professional contacts this revised edition updates practices in the translation profession and considers the impact of web based translation offerings industry and commerce rely heavily on the skills of the human translator and his ability to make intellectual decisions that is as yet beyond the capacity of computer aided translation

based largely on my doctoral dissertation textual cognetics and the role of iconic linkage in software user guides this book is intended to serve as an introduction to technical translation and usability for translators and translation researchers in this book we will look at how it is possible to improve the quality of technical translations by drawing on cognitive psychology usability engineering and technical communication to develop skills which can be implemented during the text production stage of the translation process to ensure more usable texts this book draws on a broad range of research and makes it accessible and applicable to an audience with a background primarily in translation although those with backgrounds in technical writing will also find the discussions of usability cognitive psychology and usability testing useful technical translation has traditionally been regarded as the poor cousin of real translation often regarded as a vocational practical and at times rather basic type of translation it has been largely neglected in the literature on translation theory the work that has been done in this area has largely been restricted to terminological issues or technical issues e.g. tools such as translation memories and machine translation etc or does not fully reflect the reality of modern translation and needs to be updated e.g. pinchuk 1977 sykes 1971 however technical translation is a much more promising avenue of theoretical investigation than many suspect

by definition translators are intercultural mediators this book explores some of the most important current approaches in defining intercultural competence for translators at the same time it provides real life examples of different approaches in operationalizing intercultural competence and teaching it in a translator training context written for a global audience the book provides an informative overview of the field as well as practical examples from different academic and cultural contexts this book was originally published as a special issue of the interpreter and translator trainer

originating at an international forum held at the university of vic Spain the twelve essays collected here attest to important changes in translation practice and the assumptions which underpin them leading

theorists respond to the state of translation studies today particularly the epistemological dilemma between theories that are empirically oriented and those that are inspired by developments in cultural studies but the volume is also practical experienced instructors survey existing pedagogies at translator interpreter training programs and explore new techniques that address the technological and global challenges of the new millennium among the topics considered are how to use translation technology in the classroom how to construct a syllabus for a course in audiovisual translating or in translation theory and how to develop guidelines for a program for community interpreters or conference interpreters the contributors all assume that translation whether written or oral does not occupy a neutral space it is a cross cultural exchange that produces far reaching social effects their essays significantly advance the theoretical and practical understanding of translation along these lines

a guide for translators about the translation theory the translation process interpreting subtitling internationalization and localization and computer assisted translation a special section is dedicated to the translator s education and associations the guide include as annexes several independent adaptations of the corresponding european commission works freely available via the eu bookshop as pdf and via setthings com as epub mobi kindle and pdf for a smart sensible translation you should forget not the knowledge acquired at school or university but the corrective standards some people want a translation with the touch of the source version while another people feel that in a successful version we should not be able to guess the original language we have to realize that both people have right and wrong and that their only fault is to present requirement as an absolute truth teachers agree at least on this principle if a sentence is ambiguous the translation must also be there is another critical less easy to argue based on an italian phrase with particularly strong wording traduttore traditore this critique argues that any translation will betray the author s language spirit style because of the choices on all sides what to sacrifice clarity or brevity if the formula in the text is brief and effective but impossible to translate into so few words with the exact meaning one could understand this criticism that it encourages us to read in the text it seems obvious that it is impossible to follow this advice into practice
