Problem: What is the next number in the sequence 2, 5, 8, 11? **Strategy:** Recognize the pattern: adding 3 each time. The next number is 14.

growing up on the farm in rosebud texas in the 1940 s and 1950 s has been
enthusiastically received by readers especially those who lived on farms during that
period of our american history every story is about real people and things that
actually happened even though growing up on the farm has humor from beginning
to end i mostly make fun of myself believe me in a 20 year period i made enough
humorous mistakes to provide plenty of interesting material for a book i have
received many compliments including one in which the reader states that she felt
she was sitting across the kitchen table from me telling me stories of my childhood
another said that in writing my stories i did myself proud drayton mclane owner of
the houston astros mclane wholesale and mclane trucking stated yes that once he
started reading growing up on the farm he found it hard to put down drayton
mclane grew up in cameron which is the next town south of rosebud and i got that
response from him in the u s mail 5 days after i mailed him the book i touch on just
about every facet of being a kid on a texas farm in that era and have had warm
responses from readers from coast to coast and from canada to mexico two stories
that people seem to relate strongly to are about butchering a hog and washing
clothes with homemade lye soap in a wash pot in the back yard heated by a fire
from burning logs i also describe doing daily chores on the farm playing on the farm

churning butter raising baby chicks plucking and butchering fryers being born at home in a house without electricity or running water attending a one room public school without running water where our bathroom was an outhouse my older brother riding his pony sally to school each day chopping cotton picking cotton milking cows working in our huge garden canning food from the garden with our mom and doing quite a few tasks that were beyond today's expected skill levels for someone my age i cover walking one and one half miles home from school in the first grade and hitch hiking 6 miles to town to play little league baseball at the age of 11 and 12 i felt truly rewarded for being able to contribute in such a meaningful way to the family's lively hood a significant amount of coverage is given to some of my teenage responsibilities like hauling the entire corn crop to market each year beginning at the age of 13 along with some quite humorous mistakes that i was responsible for of course all teenagers do a few things they never get around to telling their parents about and i did a few of those myself since almost all of the adults from those bygone days are now long deceased i can cover them and enjoy making fun of myself obviously i also cover my immediate family in detail and most of my extended family i believe another interesting use that can be made of this book is as reading material for the grandchildren of people that lived on farms in the 40's and 50's this is history that very few children will ever again experience in talking to people from that era i have found that very few parents told them many stories from their childhood yet people that grew up on farms from across the nation have told me again and again that my stories were very similar to their experiences once children of today read these stories they are much more likely to discuss their grandparents experiences with them while they are still alive to tell their tales i live in houston texas today and i am now giving a series of talks on growing up on the farm and can be contacted at farmboyprodigy@net if anyone would like more information or would like me to mail them a signed copy i would welcome individuals recommending this book to public and school libraries high school ffa programs retailers and their friends on my behalf
