excerpt from general phonetics for missionaries and students of languages this book has been prepared with the object of helping language students to enter their field of work with some means of coping with the difficulties they are likely to meet as regards foreign pronunciation i have described more or less fully some four score of the main types of human speech sounds and have given some account of the chief phonetic phenomena the work makes no pretence to be anything like exhaustive of the subject but it aims at being suggestive i hope that students who read it and are led to feel interested in phonetics will be incited to undertake a detailed study of the works of those authors who have specialised in some particular language or group of languages i have written mainly for those whose native language is english and therefore the sounds of english are taken as what may be called the cardinal points of speech sounds it was necessary to fix upon some dialect of the language as a standard and after very serious consideration i decided to adopt southern english as my basis of comparison this does not mean that i consider this dialect in any way superior to others but that as many of the best books on english phonetics have been written with this as a standard i thought it advisable to follow suit from many points of view northern english would have been preferable especially from the fact that many of the northern vowels differ but little from those of many foreign languages about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at [forgottenbooks.com](http://forgottenbooks.com) this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
