this book aims at bringing together and providing all the information available on the bible in the early irish church a d 550 850 drawing on some sources not well known for this subject such as columbanus the early writer apponius st gall list of works in irish script and the libri scottice scripti the beginnings are stressed after which the biblical compositions for three following centuries are given the direct links of irish literal psalm interpretation with the fourth century antioch on the orontes school are made clear as is the presence of apocryphal and extra biblical and possibly jewish tradition in the poems of blathmac and other irish compositions see inside the book

this is the first comprehensive study of the contribution that texts from britain and ireland made to the development of canon law in early medieval europe the book concentrates on a group of insular texts of church law chief among them the irish hibernensis tracing their evolution through mutual influence their debt to late antique traditions from around the mediterranean their reception and occasional rejection by clerics in continental europe their fusion with continental texts and their eventual impact on the formation of a european canonical tradition canonical collections penitentials and miscellanies of church law and royal legislation are all shown to have been living texts which were continually reshaped through a process of trial and error that eventually gave rise to a more stable and more coherent body of church laws through a meticulous text critical study roy flechner argues that the growth of church law in europe owes as much to a serendipitous conversation between texts as it does to any deliberate plan overseen by bishops and popes

many theological interpreters of scripture have claimed that church practices produce well formed readers but which practices greg mckinzie

argues that missional hermeneutics challenges the church to include participation in god s mission among the indispensable components of readerly formation after a quarter century of contemporary reflection on missional theology however the meaning of participation in god s mission remains vague in order to explain why it is a critical hermeneutical experience therefore mckinzie sets out to develop a theological account of missional participation that incorporates the concepts of theôsis embodied narrativity and solidarity then in conversation with the hermeneutical phenomenology of paul ricoeur the study suggests how theologically recontextualizing a model of the movement from embodied commitments to textual interpretation in terms of participation in god s mission illuminates the epistemic reconstitution of the church s theological interpretation of scripture understanding participation in god s mission as theological interpretation s proper locus theologicus should reorient the notion of readerly formation because the formation of missional readers is the process in which god opens the reading community s embodied eyes of faith through the works of faith seeking understanding

explores the central themes of paul s gospel gorman places special emphasis on the theopolitical character of paul s gospel and on its themes of cross and resurrection multiculturalism in the church and peacemaking and nonviolence as the way of christ gorman also offers a distinctive interpretation of justification by faith as participation in christ from publisher description

fire in my soul pays tribute to the life and legacy of dr seyoony kim who has taught as professor of new testament at fuller theological seminary for almost two decades and is known internationally for his work on the origin of paul s gospel this collection of essays in his honor revisits classic issues in pauline studies and offers fresh insights on paul s use of righteousness language in his letters the occasion and purpose of romans the problem of universal sinfulness and justification by faith it also presents several exegetical studies on the use of the old testament in the gospels scholars students and pastors interested in pauline soteriology and gospel hermeneutics will find this volume helpful in their own research teaching and ministry

above all romans is a letter about spirit enabled participation and transformation in christ and his story and thus in the mission of god in the world this commentary engages the letter to the romans as christian scripture and highlights the pauline themes for which michael gorman is best known participation and transformation cruciformity and new life peace and justice community and mission with extensive introductions

both to the apostle paul and to the letter itself gorman offers background information on paul s first century context before proceeding into the rich theological landscape of the biblical text in line with paul s focus on christian living gorman interprets romans at a consistently practical level highlighting the letter s significance for christian theology daily life and pastoral ministry questions for reflection and sidebars on important concepts make this especially useful for those preparing to preach or teach from romans the epistle of life as gorman calls it for its extraordinary promise that through faith we might walk in newness of life with christ

most studies of paul concentrate solely on his theology this book breaks new ground by focusing on the source and nature of paul s spirituality taking his cue from paul s express desire to know nothing but christ crucified michael gorman shows how paul s personal experience of god constantly intersects with the story of the cross an event that both reveals the cruciform character of god and shapes believers into a community of cruciformity conformity to the crucified christ expertly combining biblical studies and theological reflection this noteworthy volume presents a model of the christian life marked by faith love power and hope

this volume draws on recent scholarship which challenges the fifty year old assessment by beryl smalley that carolingian commentaries lacked originality and were worthy simply for transmitted their sources to the more original scholars of the eleventh century the articles contained here show that the carolingian period was a major turning point in the history of the medieval approach to the bible

in this groundbreaking book michael gorman asks why there is no theory or model of the atonement called the new covenant model since this understanding of the atonement is likely the earliest in the christian tradition going back to jesus himself gorman argues that most models of the atonement over emphasize the penultimate purposes of jesus death and the mechanics of the atonement rather than its ultimate purpose to create a transformed spirit filled people of god the new testament s various atonement metaphors are part of a remarkably coherent picture of jesus death as that which brings about the new covenant and thus the new community promised by the prophets which is also the covenant of peace gorman therefore proposes a new model of the atonement that is really not new at all the new covenant model he argues that this is not merely an ancient model in need of rediscovery but also a more comprehensive integrated participatory communal and missional model than any of the major models in the tradition life in this new covenant gorman argues is a life of

communal and individual participation in Jesus faithful loving peacemaking death written for both academics and church leaders this book will challenge all who read it to re think and re articulate the meaning of Christ's death for us
