in this second volume starting with the caliphate of banu umayyah the martyrdom of imam husain r and the caliphate of the abbasids all areas have been covered as far as the expansion of islam was publisher description

includes articles on muslims of every age and land on tribes and dynasties on the crafts and sciences on political and religious institutions on the geography ethnography of the various countries and on the history topography and monuments of the major towns and cities its scope encompasses the old arabo islamic empire the islamic countries of iran central asia the indian sub continent and indonesia the ottoman empire and all other islamic countries

volume one of the new cambridge history of islam which surveys the political and cultural history of islam from its late antique origins until the eleventh century brings together contributions from leading scholars in the field the book is divided into four parts the first provides an overview of the physical and political geography of the late antique middle east the second charts the rise of islam and the emergence of the islamic political order under the umayyad and the abbasid caliphs of the seventh eighth and ninth centuries followed by the dissolution of the empire in the tenth and eleventh

regionalism the overlapping histories of the empire s provinces is the focus of part three while part four provides a cutting edge discussion of the sources and controversies of early islamic history including a survey of numismatics archaeology and material culture

this third volume begins with the description of the conditions of spain before and after the rule of muslims and the role played by umayyad abbasid almoravid and almohad caliphs there and their encounters with the christian armies then some mention of the conquest of morocco and north africa has been given along with the details of idrisia and aghlabs rule there after that detailed accounts of ganghisid mongols turks and tartar mangols have been produced publisher description

robert irwin s authoritative introduction to the fourth volume of the new cambridge history of islam offers a panoramic vision of islamic culture from its origins to around 1800 the introductory chapter which highlights key developments and introduces some of islam s most famous protagonists paves the way for an extraordinarily varied collection of essays the themes treated include religion and law conversion islam s relationship with the natural world governance and politics caliphs and kings philosophy science medicine language art architecture literature music and even cookery what emerges from this rich collection written by an international team of experts is the diversity and dynamism of the societies which created this flourishing civilization volume four of the new cambridge history of islam serves as a thematic companion to the three preceding politically oriented volumes and in coverage extends across the pre modern islamic world

this volume the first of a series sets out in the words of hazrat mirza ghulam ahmad himself a summary of his exposition of four outstanding topics namely islam allah the exalted the holy prophet peace and blessings of allah be upon him and the holy quran the original compilation in urdu from which these extracts have been translated into english was collated with great care and diligence by syed daud ahmad may allah have mercy on him

the encyclopaedia of islam second edition sets out the present state of our knowledge of the islamic world it is a unique and invaluable reference tool an essential key to understanding the world of islam and the authoritative source not only for the religion but also for the believers and the countries in which they live
