poverty reduction and inequality are undeniably the buzz issues of the millennium and where else would one go to understand the dynamics and paradoxes they raise for policies other than africa the continent historically

synonymous with poverty until recently when chants of africa rising seem to have replaced mourning for the dark continent humongous resources have been dedicated to policy research and intervention programmes and projects to reduce poverty and inequality with africa and south asia getting more than their fair shares but while everyone agrees that something is amiss with the input output ratio of efforts aimed at poverty reduction these efforts continue unquestioningly this book is borne out of the need to question that missing link it sets out to examine contents contexts and interventions the work begins with continent wide evidence on africa examining the rising penury in the midst of abundant endowments and growth the conclusion that the authors have come to something is not right with definitions measurements and policy measures for tackling poverty across the land country experiences nigeria cameroon australia and the united states also agree with the position that poverty reduction seems to raise indifferent to the broad policy environment within which it thrives this book shows why poverty may not have been responsive to growth in developing countries in recent years it examines outcomes of policies and insists that poverty inequality and reduction strategies need not only be context specific but should involve much more than just narrow interventions if therefore you are interested in questioning conventional positions about poverty and inequality this book is for you

this edited volume looks at energy poverty an issue whose pivotal role in the fight for human development is only now being recognised by policymakers nearly one quarter of humanity still lacks access to electricity close to one third rely on traditional fuels like firewood and cow dung for cooking at great cost to their health and welfare while most prevalent in parts of africa and asia energy poverty is a global problem which concerns us all this book which brings together economists policymakers entrepreneurs and other practitioners from all over the world is dedicated to a single goal finding a solution to this haunting problem it is part history part economics part political analysis part business case review and part field handbook part one focuses on defining and measuring the problem and benchmarking progress in solving it an obvious prerequisite to any successful energy access policy part two reviews past and current energy access programs with an eye towards finding out what worked and what didn't

and what can be replicated elsewhere these case reviews are told as seen on the ground china s experience by top chinese officials and africa s by african regulators and scholars based in part on those cases the book s last more forward looking section aims to present practitioners with a tool kit a menu of options to speed up their efforts the energy access agenda is gaining traction at a time of rising concerns about climate change and resource constraints this book shows that bringing modern energy to those who lack it not just a moral imperative but will likely benefit the world as a whole without harming the environment or unduly stretching finite resources

this book simultaneously sheds light on the most pressing global challenges facing humanity in the 21st century and pays tribute to president vaclav havel of the czech republic who had a great impact on the transformation of world politics in the 20th century it examines in detail contemporary international issues such as climate change mass migration refugees internal armed conflicts great power rivalry and regional political instability it also underscores the increasing inability of the westphalian model to solve complex transnational problems and calls for a new approach included as a postscript is an extensive analysis of the resurgence of dictatorial regimes in many regions of the world and their attempt to undo the rules based international order established after world war ii this trend is a setback for those who fought tirelessly to end the cold war and to spread freedom and democracy to millions of people across the globe today that legacy is being challenged by autocratic regimes that see respect for human rights as a threat to their political survival international law is what unites us as citizens of the world and only through international law and multilateral cooperation can we address the global challenges examined in this book
