a magisterial book of nearly five hundred poems from some of history's greatest Chinese poets translated and edited by a renowned poet and scholar. The Chinese poetic tradition is the largest and longest continuous tradition in world literature. This rich and far-reaching anthology of nearly five hundred poems provides a comprehensive account of its first three millennia, 1500 BCE to 1200 CE, the period during which virtually all its landmark developments took place. Unlike earlier anthologies of Chinese poetry, Hinton's book focuses on a relatively small number of poets, providing selections that are large enough to re-create each as a fully realized and unique voice. New introductions to each poet's work provide a readable history told for the first time as a series of poetic innovations forged by a series of master poets. David Hinton has lured into English a new manner of hearing the great poets of that long glory of China's classical age. His achievement is another echo of the original and a gift to our language.

From Tottel's Miscellany (1557) to the last twentieth-century Oxford Book of English Verse (1999), anthologies have been a prime institution for the preservation and mediation of poetry. The importance of anthologies for creating and re-creating the canon of English poetry for introducing new programmes of poetry as a record of changing poetic fashions, audience tastes and reading practices, or as a profitable literary commodity has often been asserted. Despite its impact, however, the poetry anthology in itself has attracted surprisingly little critical interest in Britain or elsewhere in the English-speaking world. This volume is the first publication to explore the largely unmapped field of poetry anthologies in Britain. Essays written from a wide range of perspectives in literary and cultural studies and the point of view of poets, editors, publishers and cultural institutions aim to do justice to the typological, functional and historical variety with which this form of publication has manifested itself from early modern print culture to the postmodern age of the world-wide web.

To honor FSG's 75th anniversary, here is a unique anthology celebrating the riches and variety of its poetry list. Past, present and future poetry has been at the heart of Farrar, Straus and Giroux's identity ever since Robert Giroux joined the fledgling company in the mid-1950s, soon bringing T.S. Eliot, John Berryman, Robert Lowell and Elizabeth Bishop onto the list. These extraordinary poets and their successors have been essential in helping define FSG as a publishing house with a unique place in American letters. The FSG Poetry Anthology includes work by almost

all of the more than one hundred twenty five poets whom fsg has published in its seventy five year history giroux s first generation was augmented by a group of international figures and nobel laureates including pablo neruda nelly sachs derek walcott seamus heaney and joseph brodsky over time the list expanded to includes poets as diverse as yehuda amichai john ashbery frank bidart louise gluck thom gunn ted hughes yusef komunyakaa mina loy marianne moore paul muldoon les murray grace paley carl phillips gjertrud schnackenberg james schuyler c k williams charles wright james wright and adam zagajewski today henri cole francine j harris ishion hutchinson maureen n mclane ange mlinko valzhyna mort rowan ricardo phillips and frederick seidel are among the poets who are continuing fsg s tradition as a discoverer and promoter of the most vital and distinguished contemporary voices this anthology is a wide ranging showcase of some of the best poems published in america over the past three generations it is also a sounding of poetry s present and future

r m liuzza s broadview edition of beowulf was published at almost exactly the same time as seamus heaney s in reviewing the two together in july 2000 for the new york review of books frank kermode concluded that both translations were superior to their predecessors and that it was impossible to choose between the two the less celebrated translator can be matched with the famous one he wrote and liuzza s book is in some respects more useful than heaney s ever since the liuzza beowulf has remained among the top sellers on the broadview list with this volume readers will now be able to enjoy a much broader selection of old english poetry in translations by liuzza as the collection demonstrates the range and diversity of the works that have survived is extraordinary from heartbreaking sorrow to wide eyed wonder from the wisdom of old age to the hot blood of battle and to the deepest and most poignant loneliness there is breathless storytelling and ponderous cataloguing there is fervent religious devotion and playful teasing the poems translated here are meant to provide a sense of some of this range and diversity in doing so they also offer significant portions of three of the important manuscripts of old english poetry the vercelli book the junius manuscript and the exeter book
