things which can mean life and death for he and his family now what made me decide to write on survival with tips and techniques i was rather surprised when i went to a friend s house and saw that she had four bags packed and placed at strategic exits when she saw me looking at them quizzically she just told me oh those are just our family survival kits it is better to be safer than to be sorry and to be caught napping and unprepared i came back home and began to think now here was a clearheaded family who knew that disaster could strike anywhere anytime besides we live in an area which is prone to earthquakes waking up in the middle of the night to find our ceiling trembling is part and parcel of our lives and we have got used to it also we know that one fine day it may literally and figuratively fall on us
