in the spring of 1846 james k polk announced that the mexican army had invaded united states territory and had shed american blood upon the american soil this political rhetoric as glenn w price establishes in origins of the war with mexico the polk stockton intrigue is part of the myth of american innocence it represents the internal contradiction between professed values and patterns of action perpetuated by american historical writing that emphasizes national consequences of the acquisition of foreign territory and minimizes both its international significance and the importance of the diplomatic and military methods used a conflict with mexico leading to territorial expansion of the united states was not unwanted california was polk s prime objective from the beginning of his administration and this mexican province was to be acquired by conquest in a war initiated on the texas mexican border to this end polk sent several agents to texas but the man at the center of the war intrigue was commodore robert f stockton independently wealthy prominent in politics and the head of great business enterprises sufficient evidence exists to substantiate in every important particular the steps in polk s path of intrigue his attempts to bribe mexican officials his efforts to encourage revolutionary forces in the mexican provinces his use of the threat of force to frighten mexico into selling california his attempt to initiate a war by proxy through the government of texas and anson jones if polk was unwilling to assume responsibility for aggressive war stockton was not he arrived in galveston with a squadron of naval vessels in may of 1845 prepared to finance an army of three thousand men from his personal funds to avoid the overt involvement of the government of the united states but says price for all the internationally dangerous implications of such a maneuver the two men who played the chief roles in the war intrigue of 1845 are representative in their written and spoken expression of faith in american righteousness of action and in the american tradition of the divine mission based on extensive research into the written and spoken words of the people who were involved directly and indirectly in the events this analysis which will be considered revisionist of the origins of the war with mexico is the result of the kind of objective approach to national history for which the author makes a plea in his preface and conclusion and in his interpretive comments throughout the work the historian price believes has the extraordinary advantage of being able to examine mankind from that distance and elevation and detachment which so often reveals as it is designed to reveal the gulf between pretension and performance

originally published new york macmillan co 1919

winner of the bolton johnson prize winner of the utley prize winner of the distinguished book award society for military history the dead march incorporates the work of mexican historians in a story that involves far more than military strategy diplomatic maneuvering and american political intrigue studded with arresting insights and convincing observations james oakes new york review of books superb a remarkable achievement by far the best general account of the war now available it is critical insightful and rooted in a wealth of archival sources it brings far more of the mexican experience than any other work and it clearly demonstrates the social and cultural dynamics that shaped mexican and american politics and military force journal of american history it has long been held that the united states emerged victorious from the mexican american war because its democratic system was more stable and its citizens more loyal but this award winning history shows that americans dramatically underestimated the strength of mexican patriotism and failed to see how bitterly mexicans resented their claims to national and racial superiority their fierce resistance surprised us leaders who had expected a quick victory with few casualties by focusing on how ordinary soldiers and civilians in both countries understood and experienced the conflict the dead march offers a clearer picture of the brief bloody war that redrew the map of north america

a history of the 1st and 2nd pennsylvania regiments who volunteered to go to mexico to fight the war 1846 1848

this book explores mexico s foreign policy using the principled pragmatism approach it describes and explains main external actions from the country s independence in the nineteenth century to andrés manuel López obrador s administration the principal argument is that mexico has resorted to principled pragmatism due to geographic historical economic security and political reasons in other words the nation uses this instrument to deal with the united states defend national interests appease domestic groups and promote economic growth the key characteristics of mexico s principled pragmatism in foreign policy are that the nation projects a double edged diplomacy to cope with external and domestic challenges at the same time this policy is mainly for domestic consumption and it is also linked to the type of actors that are involved in the decision making process and to the kind of topics included in the agenda this principled pragmatism is related to the nature of the intention principism is deliberate and pragmatism is forced and this policy is used to increase mexico s international bargaining power

the war between these two nations from 1846 to 1848 radically altered the course of u s and mexican history

childhood and modernity in cold war mexico city traces the transformations that occurred between 1934 and 1968 in mexico through the lens of childhood countering the dominance of western european and north american views of childhood eileen ford puts the experiences of children in latin america into their historical political and cultural contexts drawing on diverse primary sources ranging from oral histories to photojournalism ford reconstructs the emergent and varying meanings of childhood in mexico city during a period of changing global attitudes towards childhood and changing power relations in mexico at multiple scales from the family to the state she analyses children s presence on the silver screen in radio and in print media to examine the way that children were constructed within public discourse identifying the forces that would converge in the 1968 student movement this book demonstrates children s importance within mexican society as mexico transitioned from a socialist inspired revolutionary government to one that embraced industrial capitalism in the cold war era it is a fascinating study of an extremely important burgeoning population group in mexico that has previously been excluded from histories of mexico s bid for modernity childhood and modernity in cold war mexico city will be essential reading for students and scholars of latin american history and the cold war
