this book based on the prestigious martin lectures given annually at oberlin college offers a major new interpretation of vergil's *aeneid* scholars have tended to view vergil's poem as an attempt to combine aspects of homer's *iliad* and *odyssey* into a single epic joseph farrell argues by contrast that vergil's aim is not to combine them but instead to stage a contest to decide which homeric hero the *aeneid* will most resemble the goddess juno works in the poem to make it another *iliad* a tragedy of death and destruction against the narrator's apparent intention to make it another *odyssey* a comedy of homecoming and marriage farrell begins by illustrating his method of interpretation and its advantages over previous treatments of vergil and homer he then turns to what he regards as the most fruitful of interpretative possibilities ancient ethical philosophy treated homer's principal heroes achilles in the *iliad* and odysseus in the *odyssey* as key examples of heroic or kingly behaviour but also stressed their fundamental differences from one another achilles is an intransigent solipsistic man of violence odysseus one of intelligence perspicacity flexibility and self control many ancient thinkers contrast the heroes in these terms with none imagining a stable combination of the two farrell argues that this supports his contention that vergil does not aim to combine them but to stage a homeric contest for the soul of his hero and his poem the final chapter considers the political relevance of this contest to rome's leader caesar augustus who counted aeneas as the mythical founder of his own family an ultimately iliadic or an odyssean *aeneid* would reflect in very different ways upon the ethical legitimacy of augustus regime
