based on research and made personal through anecdotes and real life examples this introduction to human development offers a combination of topical chronological approach an eclectic theoretical perspective and a focus on contemporary issues and concerns

key human development theories that continue to guide research and practice are examined in this engaging text ten key theories are grouped into three families those that emphasize biological systems environmental factors and those that reflect an interaction between the two this organization enhances students ability to evaluate compare and contrast theories both within and across families each family is introduced with an overview of their unique perspectives and the rationale for grouping them together discussion of each theory includes the cultural historical context during the theory s development its key concepts and ideas extensions of the theory in contemporary work an example showing a modification of the theory an application of how the theory is used to inform practice and an analysis of how the theory answers

6 basic questions that a human development theory should address each chapter includes an overview of the strengths and weaknesses of the theories to facilitate comparisons theories that have a clear lifespan focus along with cases and examples that address issues across the lifespan are included the second edition features a new chapter on bioecological theory that highlights the increased use of this theory in the development of family school and community intervention programs a new epilogue that examines the same case via each of the ten theories illustrating their similarities and differences and how these ideas cast a unique light on a common situation new opening cases that bring theory to life along with narrative that links the case to the chapter's concepts guiding questions that help students compare theoretical perspectives critical thinking questions that focus on using the theory to interpret the case and personal life experiences and recommended resources that extend students understanding more examples from various disciplines that address topics students are likely to encounter as professionals a new glossary that defines the boldfaced key terms enhanced website at psypress.com/9781848726673 that provides instructors with a test bank power points discussion questions and activities additional cases with questions teaching notes for using the book with various types of majors and a conversion guide outlining changes to the new edition and students with key terms with hot links to their definitions chapter summaries and outlines and additional resources for further study updated research and applications highlight the latest scientific developments ideal for advanced undergraduate or beginning graduate courses in theories of development lifespan or child development taught in psychology human development family studies education and social work

a classic in the field this third edition will continue to be the book of choice for advanced undergraduate and graduate level courses in theories of human development in departments of psychology and human development this volume has been substantially revised with an eye toward supporting applied developmental science and the developmental systems perspectives since the publication of the second edition developmental systems theories have taken center stage in contemporary developmental science and have provided compelling alternatives to reductionist theoretical accounts having either a nature or nurture emphasis as a consequence a developmental systems orientation frames the presentation in this edition this new edition has been expanded substantially in comparison to the second edition special features include a separate chapter focuses on the historical roots of concepts and theories of human development on philosophical models of development and on developmental contextualism two new chapters surrounding the discussion of developmental contextualism one on developmental systems theories wherein several exemplars of such models are discussed and a corresponding chapter wherein key instances of such theories life span life course bioecological and action theoretical ones are presented a new chapter on cognition and development is included contrasting systems approaches to cognitive development with neo nativist perspectives a more differentiated treatment of nature oriented theories of development is provided there are separate chapters on behavior genetics the controversy surrounding the study of the heritability of intelligence work on the instinctual theory of konrad lorenz and a new chapter on sociobiology a new chapter concentrates on applied developmental science

with skill and enthusiasm respected authors and noted researchers robert v kail and john c cavanaugh tell a comprehensive and engaging story of life in human development a lifespan view second edition experts in child development and adulthood and aging respectively kail and cavanaugh relate the fascinating story of the human lifespan their streamlined approach eliminates the redundancy of describing the lifespan via the traditional organizational structure used by many texts for the

course instead kail and cavanaugh employ a four part structure that covers early childhood the school years the working raising children years and later life this accurate and lively depiction of the developmental process helps students make better sense of our most intriguing and intricate journey life providing full coverage of child and adult development within a modified chronological framework kail and cavanaugh help students make the connections between chapters by emphasizing the dynamic interplay of biological psychological and social forces on development this integrated biopsychosocial approach not only address the needs of many instructors but also helps students understand how each element of development impacts the others and unlike other lifespan texts which devote 40 or less of their coverage to adulthood and aging human development a lifespan view devotes as much coverage to adulthood and aging as to childhood and adolescence all in 15 manageable chapters

a guide to human biological and psychological development from conception to late adulthood that uses a holistic approach to acknowledge individuality showing that not all normal people develop in exactly the same way

human development a life span view second canadian edition provides a complete overview of the physical cognitive and socio emotional domains of growth and development over the life span it lays the grounding of theoretical and empirical foundations accentuating discussions on emerging trends and controversial topics by placing them within a canadian context and focusing on the canadian experience the second edition includes the most up to date findings and references bringing human development to life by introducing students to the perspectives of those who pioneered the field as well as those who are currently shaping it throughout the text canadian research and cultural examples are integrated with relevant international materials to ensure that the content is more applicable and relevant to canadian students than ever before

examines the importance of evolutionary biology for key issues in human development illustrates the power of socio biological approaches in understanding developmental phenomena and their importance in generating new empirically verifiable predictions

this chronologically organized text is less expensive and briefer than most of the human lifespan texts its numerous examples drawn from education nursing and psychology make the content relevant to students from a variety of majors and backgrounds while a highly praised study guide integrated into the text promotes and reinforces conceptual understanding the new edition includes increased material on cognitive development and expanded coverage of culture
