children and their families the continuum of care provides a unique interdisciplinary perspective that

underscores the nurse's role in planning, coordinating, and working with all members of a pediatric health care team. It shows students how to make critical judgments and assessments to manage the care of children in a variety of community settings, including homes, schools, and medical centers, from infancy through adolescence. This text thoroughly covers the health promotion, surveillance, and maintenance needs of children. In this edition, threaded case studies follow a community of pediatric clients and continue throughout the chapter to show the interrelated dynamics of pediatric nursing care. A companion website includes journal articles, NCLEX-style chapter review questions, a Spanish-English audio glossary, watch and learn videos, a fluids and electrolytes tutorial, and much more.

Alert: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID provided by your instructor to register for and use Pearson's MyLab Mastering products. Packages: Access codes for Pearson's MyLab Mastering products may not be included when purchasing or renting from companies other than Pearson. Check with the seller before completing your purchase. Used or rental books: If you rent or purchase a used book with an access code, the access code may have been redeemed previously, and you may have to purchase a new access code. Access codes: Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase. Written for today's nurse: Principles of Pediatric Nursing: Caring for Children, 5e explores the conditions and nursing interventions for health conditions affecting children, adolescents, and their families, emphasizing research and evidence-based practice. It organizes material by body system instead of developmental stage, allowing faculty to teach pediatrics in integrated courses, short courses, without redundancy. This edition includes a new chapter on genetic and genomic influences, more emphasis on culturally competent care, and new features that emphasize clinical reasoning and health promotion designed to help students bridge the gap between classroom and clinical situations. The book emphasizes health promotion and maintenance, growth and development, and family-centered care. ISBN 0133096238, 9780133096231. Principles of Pediatric Nursing: Caring for Children, Plus New MyNursingLab with Pearson eText, Access Card Package. Package consists of ISBN 0132111756, 9780132111751. Principles of Pediatric Nursing: Caring for Children, ISBN 0133054292, 9780133054293. New MyNursingLab with Pearson eText, Access Card for Pediatric Nursing, 24-month access.
