comprehensive textbook manages to be clear accessible and jargon free but without oversimplifying complex debates earlier editions of sociology broke new ground by incorporating cutting edge debates such as the impact of globalisation into an introductory text this fifth edition remains a state of the art textbook with fresh and engaging new material added throughout while covering all of the core topics of sociology the fifth edition also includes a great deal of substantive new material ensuring that students are introduced to the most recent sociological debates throughout the book weaves together classical and contemporary theory and data and provides a wide range of everyday examples to which students can easily relate the fifth edition also benefits from new discussions of global inequality disability ageing and the life course risk the network society and terrorism as well as many other additional and up to date topics numerous learning aids in every chapter such as summary points questions for further thought and additional reading suggestions which help to reinforce students knowledge lots of extra photographs diagrams case studies and cartoons to bring ideas to life and fire students imaginations high quality supplementary resources on a dedicated website including a full instructors manual and additional student aids all specially designed to stimulate students learning and critical thinking the fifth edition of this classic textbook is an ideal teaching text for first year university and college courses and will be essential reading for all students who are looking for an exciting authoritative and easy to follow introduction to sociology please visit the accompanying website at polity.co.uk/giddens5

is there a future for sociology to many sociology seems to have lost its way born of the ideas of auguste comte in the nineteenth century sociology established itself as the science of modernity linked to a progressive view of history yet today the idea of progress has more or less collapsed with its demise some say sociological thought has moved to the margins of contemporary intellectual culture in this book the author challenges such an interpretation showing that sociology continues to

hold a central position within the social sciences looking both to the past of sociology and the diversity of intellectual trends found in the present day giddens explores many aspects of the sociological heritage comte durkheim parsons marshall and habermas are among the figures covered giddens also connects sociological work directly to current political issues and places the discipline of sociology in the context of broad questions of social and political theory this book will be of interest to undergraduates and professionals in the fields of sociology anthropology and political science

this is a new and revised edition of a book which has already established itself as a basic text in social theory the first section of the work provides a concise critical analysis of some leading schools of thought in social philosophy giving particular attention to phenomenology ethnomethodology and wittgensteinian thought giddens concentrates primarily upon the implications of these various perspectives for an account of human action and its intelligibility an action approach on its own however will not do in human social life action and structure presuppose one another the author therefore moves on to provide a series of concepts relevant to understanding the production and reproduction of society the book concludes with a succinct statement of some new rules of sociological method representing the first and most trenchant exposition of the principles of structuration theory this edition also contains a substantial new introduction in which giddens replies to some of the more persistent criticisms made of the original version and also addresses some important issues originally discussed only in a cursory way

from gender theories to the emergence of an underclass anthony giddens selection of contributions maintains a distinctive approach to sociology with its readable and lively style

social life is in a constant process of change and sociology cannot afford to stand still sociology today is theoretically diverse

covers a huge range of subjects and draws on a broad array of research methods central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies though our understanding of these concepts is constantly evolving and changing this clear and jargon free book introduces a careful selection of essential concepts that have helped to shape sociology and others that continue to do so going beyond brief dictionary style definitions anthony giddens and philip w sutton provide an extended discussion of each concept which sets it into historical and theoretical context explores its main meanings in use introduces some relevant criticisms and points readers to its ongoing development in contemporary research and theorizing organized in ten thematic sections the book offers a portrait of sociology through its essential concepts ranging from capitalism identity and deviance to citizenship the environment and intersectionality it will be essential reading for all those new to sociology as well as those seeking a reliable route map for a rapidly changing world

every chapter of essentials of sociology fourth edition is organized around stories pulled from the news new features in the fourth edition pull together the big questions in each chapter and organize them around a concept map to help students synthesize concepts and see the personal and global applications of a sociological imagination

now available in a discounted bundle buy the exciting new sixth edition of anthony giddens s sociology alongside the specially tailored and revised selection of key sociological works in sociology introductory readings the main textbook provides an authoritative overview of recent global developments and new ideas in sociology classic debates are also given careful coverage with even the most complex ideas explained in an engaging way the reader offers a stimulating and wide ranging set of readings to enable students to get to grips with original sociological thinking a strong emphasis has been placed on creating a productive mixture of classic and contemporary readings which is highly readable and lively yet remains challenging together the two books

provide an engaging and thorough introduction to the full scope of sociology a comprehensive resource for all students for additional support and material please visit the accompanying website at politybooks.com/giddens6

sociology a brief but critical introduction offers a lively discursive and jargon free introduction to sociology accessible to the lay reader as well as to the student it incorporates discussion of recent developments in both social theory and empirical social research developments to which giddens has directly contributed

anthony giddens has been described as the most important english social philosopher of our time over twenty five years and even more books he has established himself as the most widely read and widely cited social theorist of his generation his ideas have profoundly influenced the writing and teaching of sociology and social theory throughout the english speaking world in recent years his writing has become much more explicitly political and in 1996 he took up his high profile appointment as director of the london school of economics and political science it is in this new position and with these new political ideas that he has been described as the key intellectual figure of new labour in britain following the astonishing success of labour in the 1997 general election his ideas have been the focus of intense interest in this series of extended interviews with chris pierson giddens lays out with customary clarity and directness the principal themes in the development of his social theory and the distinctive political agenda which he recommends this volume will be of great interest to second and third year students in sociology and social theory politics and political theory as well as to the general reader

in this book anthony giddens addresses a range of issues concerning current developments in social theory relating them to the prospects for sociology in the closing decades of the twentieth century composed of closely integrated papers all written over

the past few years the book includes seven essays not previously published plus two have not appeared in english before in assessing the likely future evolution of sociology in particular and the social sciences in general the author both draws upon ideas established in his more abstract theoretical writings and examines critically competing traditions of thought those looking for an accessible introduction to giddens s writing will find in this book a set of clear expositions of his basic ideas by situating these ideas in relation to the critical assessment of the views of others however the author provides new sources of insight into the distinctiveness of his own claims

the studies which comprise this book are essentially organized around a critical encounter with european social theory in its classical period i e from the middle years of the nineteenth century until the first world war and have the aim of working out some of the implications of that encounter for the position and prospects of the social sciences today the issues involved relate to the following series of problems method and epistemology social development and transformation the origins of sociology in nineteenth century social theory and the status of social science as critique in each of these areas giddens develops views that challenge existing orthodoxies and connects these ideas to a reconstruction of social theory in the contemporary era

anthony giddens is one of the most famous and influential sociologists of recent decades largely credited with the concept of the third way he continues to be a key advisor to tony blair and is generally presented as an exponent of liberalism and socialism this book provides a controversial introduction to giddens work covering the wide range of his writing from theory to self reflexivity modernity and politics placing them all within the illuminating framework of a historical context giddens writing has always embodied a political and ethical position one that has changed considerably over the years and is best understood through the social context in which it was written his work in the 1970s attempted to marry liberalism and socialism but

following the collapse of communism in the 1990 east european revolutions his world view became liberal rather than socialist and his later work on reflexivity and the third way embodies this loyal explores how this world view accounts for many tensions and failures in giddens theory and that overall his work is fundamentally flawed

anthony giddens is one of the world s most prominent and prolific sociologists and yet he is also a difficult study for the beginning student of sociology this is the first introduction to the work of giddens including the major part of his sociological and social theoretical project the author traces giddens development from the late sixties to the nineties in a straightforward readable style covering all parts of giddens s sociology in a well arranged summary also featured is a lengthy interview with giddens by the author and the most comprehensive giddens bibliography to date

the giddens phenomenon has been one of the most obvious and talked about features of world sociology since the late 1960s this book first published in 1992 provides a prudent and essential critical introduction to one of the leading sociologists of our time the book is intended to provide an accessible introduction to giddens s work and also to situate structuration theory in the context of other approaches the reissue will be of interest to students of sociology and those working in the other social sciences

it is likely that this book will be regarded as the most important piece of grand sociological theory in english of the past decade mark poster university of california this book will take its place alongside such major statements of sociological theory as those of parsons and habermas anyone interested in the state of the social sciences today the character of social theory or the relevance of philosophy to social theory will now find it essential to grapple with giddens s bold and incisive book richard

bernstein haverford college usa anthony giddens s new book is the fullest presentation yet of his theoretical views it has the lean sparse utterly serious craftsmanlike qualities we have learned to expect from its author and which make it a real pleasure to read dennis wrong times higher education supplement

authored by four leading scholars and teachers introduction to sociology provides an authoritative introduction to basic concepts major theories and current research in a streamlined easy to navigate format a consistent four part chapter structure makes the reading manageable without sacrificing coverage while inquisitive norton s award winning adaptive learning platform helps ensure students are mastering the content at the end of every chapter a discussion of unanswered questions highlights the power of the sociological imagination to help us better understand our complex society

social life is in a constant process of change and sociology can never stand still as a result contemporary sociology is a theoretically diverse enterprise covering a huge range of subjects and drawing on a broad array of research methods central to this endeavour is the use of core concepts and ideas which allow sociologists to make sense of societies though our understanding of these concepts necessarily evolves and changes this clear and jargon free book introduces a careful selection of essential concepts that have helped to shape sociology and continue to do so going beyond brief dictionary style definitions anthony giddens and philip w sutton provide an extended discussion of each concept which sets it in historical and theoretical context explores its main meanings in use introduces relevant criticisms and points readers to its ongoing development in contemporary research and theorizing organized in ten thematic sections the book offers a portrait of sociology through its essential concepts ranging from capitalism identity and deviance to the digital revolution environment postcolonialism and intersectionality it will be essential reading for all those new to sociology as well as anyone seeking a reliable route map for a

rapidly changing world

this thoroughly revised and updated third edition provides an expanded analysis of the nature and future of sociological theory it offers new sections on feminist post colonial and critical race theories as well as a discussion of theories of system structure and complexity

by controversially turning away from the current debates which surround social theory this book provides an historical analysis of the profound burden of sociology and its implications today
