These days, nobody really wants to learn everything there is to know about working with digital video, images, music, and dvds, and even if you did, who has the time to endlessly tinker and play with it until you figure everything out? You just want a book that will quickly show you how to get things done, things that aren't already covered in the docs, and things you can't just figure out on your own. *ilife* in a Snap is designed specifically for today's computer user: somebody who is new to managing digital media with *ilife* but not new to Macs; somebody who doesn't have time for long-winded, mind-numbing explanations; and certainly no time or patience for bad jokes. Organized into a series of well-organized, bite-sized, quickly accomplished tasks, this book lets the reader zero right in on the one particular task he or she wants to accomplish quickly, figure out what to do, do it, and then get back to work.

Need book design and layout skills to self-publish your book? This book is the ticket to achieve your goal. This book will show you how to elegantly design and layout your book to receive notice by book buyers, editors, publishers, and distributors, whether you plan to be published in print or on the internet. The emphasis is on using the appropriate software to make the book look professional. Furthermore, this handbook touches upon how to market and sell your book once it is in print or on the internet. Before you publish a book or anything new, read several books, including this one. Dan Poynter, author of the *Self-Publishing Manual*.
