applied psychology for nursesby mary f porter

this little book is the outgrowth of a conviction strengthened by some years of experience  
with hundreds of supposedly normal young people in schools and colleges confirmed by my  
years of training in a neurological hospital and months of work in a big city general hospital  
that it is of little value to help some people back to physical health if they are to carry with  
them through a prolonged life the miseries of a sick attitude as nurses i believe it is our  
privilege and our duty to work for health of body and health of mind as inseparable  
experience has proved that too often the physically ill patient hitherto nervously well returns  
from hospital care addicted to the illness accepting attitude for which the nurse must be held  
responsible i conceive of it as possible that every well trained nurse in our country shall  
consider it an essential to her professional success to leave her patient imbued with the will  
to health and better equipped to attain it because the sick attitude has been averted or if  
already present has been treated as really and intelligently as the sick body to this end i  
have dealt with the simple principles of psychology only as the nurse can immediately apply
