personal property security is an important subject in commercial practice as it is the key to much of the law of banking and sale this second edition has been fully updated and expanded to cover all important issues and changes within this highly complex area of law it explains traditional methods of securing debts such as mortgages charges and pledges on property other than land describing how these are created how they must be registered or otherwise perfected if they are to be valid the rights and duties of the parties and how the security is enforced if the debt is not paid the new edition includes an expanded section on priorities in which it explains how priority disputes between competing interests over the same property are resolved in addition the book covers the law governing other transactions that perform a similar economic function such as finance leases retention of title clauses and sales of a company s book debts these are not currently treated by the law as security and are therefore subject to different rules on perfection priority and enforcement there is much expansion of the discussion relating to enforcement including the issue of right of use following lehman more analysis on administration and all forms of non possessory security and quasi security and a new chapter on enforcement of security addressing the right of appropriation under fc fcar and the cukurova case the conflict of laws section includes developments under the rome i regulation affecting assignment issues the unidroit convention 2009 in relation to tiered holdings and the cape town convention s extensions made to coverage of asset backed security over equipment it also addresses the changes brought about by the abolition of slavenburg registration this edition contains relevant points from the banking act 2009 concerning its impact on security such as the power to protect certain interests on a transfer of property and also considers amendments regarding liquidators expenses under the insolvency rules the authors additionally deal with the role of step in rights and why they are part of the statutory definition of

project finance in the enterprise act previously published as the law of personal property security this new edition brings together all of the law on this complex area providing guidance in the context of commercial practice especially with increased coverage of conflict of laws priority insolvency and enforcement

secured transactions law has been subjected to a close scrutiny over the last two decades one of the main reasons for this is the importance of availability of credit and the consequent need to reform collateral laws in order to improve access to finance the ability to give security effectively influences not only the cost of credit but also in some cases whether credit will be available at all this requires rules that are transparent and readily accessible to non lawyers as well as rules that recognise the needs of small and medium sized enterprises this book critically engages with the challenges posed by inefficient secured credit laws it offers a comparative analysis of the reasons and the needs for a secured transactions law reform as well as discussion of the steps taken in many common law civil law and mixed law jurisdictions the book written under the auspices of the secured transactions law reform project informs the debate about reform and advances novel arguments written by world renowned experts that will build upon the existing literature and as such will be of interest to academics legal practitioners and the judiciary involved in secured transactions law around the world the text considers reform initiatives that have taken place up to the end of april 2016 it has not been possible to incorporate events since then into the discussion however notable developments include the banks decree passed by the italian government on 29th june 2016 and the adoption of the model law on secured transactions by uncitral on 1st july 2016

first published in 1984 in this collection of essays schneirla is identified as a scientist and citizen unafraid to hold and present unpopular ideas schneirla had always been opposed to the hereditarian views that allowed for the politicalization of psychology and spoke out early against the idea of the genetic basis of behavior it is fitting that his ideas which still form the nexus of the major theoretical criticism of classical ethology now can be seen to stand in opposition to the hereditarian views of socio biology

derived from the renowned multi volume international encyclopaedia of laws this practical analysis of the law of property in lithuania deals with the issues related to rights and interests in all kinds of property and assets immovable movable and personal property how property rights are acquired fiduciary mechanisms and security considerations lawyers who handle transnational disputes and other matters concerning property will appreciate the explanation of specific terminology application and procedure an introduction outlining the essential legal cultural and historical considerations affecting property is followed by a discussion of the various types of property further analysis describes how and to what extent legal subjects can have or obtain rights and interests in each type the coverage includes tangible and intangible property varying degrees of interest and the various ways in which property is transferred including the ramifications of appropriation expropriation and insolvency facts are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance the book includes ample references to doctrine and cases as well as to relevant international

treaties and conventions its succinct yet scholarly nature as well as the practical quality of the information it provides make this book a valuable time saving tool for any practitioner faced with a property related matter lawyers representing parties with interests in lithuania will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative property law
