in this book dr donald bloesch sharply diverges from much traditional thinking on the relationship between theology and philosophy and suggests an alternative that is solidly anchored in biblical faith instead of seeing this relationship in terms of synthesis or correlation or even simple subordination he calls for the conversion and transformation of philosophical meanings in the light of the biblical revelation philosophy can be of considerable aid to theologians but they must take care not to let philosophical concepts determine the meaning of faith reason can be enlisted in the service of revelation but it cannot establish the truth of revelation against the irrationalism of contemporary existentialist theology and the rationalism that has pervaded both scholastic orthodoxy catholic and protestant and liberal philosophical theology bloesch proposes an evangelical theology of revelation that seeks to employ reason in the task of understanding the faith the author upholds not an autonomous reason but an obedient reason and he shows that this ideal has support in the history of theology as well as in the bible

Ladd's commentaries on the mythological aspects of Judaism and Christianity are illuminated by his depth of scriptural knowledge and thorough researches. This eclectic work examines extant writings of a variety of ancient civilizations to shed light upon the myths and stories of the Hebrews. Ladd looks into the ancient Chaldeans, the Egyptians, the Greeks, and even the Hindus of the East to arrive at his conclusions. The author's desire is to uncover how Judaism and later on Christianity began in the context of the religious and cultural events which preceded their establishment. Spending years amid volumes of disparate and obscure sources, Ladd sought to condense and combine their insights into this single book that curious readers may discover such history with relative ease. Individual monuments and stone tablets plus surviving examples of writing upon papyrus are among the original sources Ladd consults. The Bible from the life of Moses and the Exodus from Egypt onwards is examined at length. The author disagreed with the conventional explanations whether regarding the life of certain figures or the authorship and origins of various texts. Thus much of this work seeks to validate and support the author's assertions to the farthest extent possible.
