the essays in this collection spanning 1925 to 1970 confirm Aurel Kolnai's place as one of the great conservative theorists of the twentieth century. Kolnai carefully analyzes the leading intellectual positions and thinkers of his day, the dominant social movements and the prevailing moral influences: psychoanalysis, fascism, and national socialism. He documents how they run counter to the architecture of civilization. Kolnai is relatively unknown outside philosophical circles, but his politics, values, and national socialism provides an overview of his moral philosophy. In most moral philosophy books, one finds pages devoted to the major theories of ethics. This volume is different; it seeks to address the larger moral question of what kind of thought works against morality and, by implication, how one can defend morality. Eager to protect the surviving islands of liberal civilization, Kolnai's concern is really one of theory. He shows that much of what passes for moral theory is subversive of moral order. All who think that totalitarianism is a permanent threat and who suspect that ideas can quickly be dangerously distorted in times of social unrest will find plenty of clarifying ideas in this volume.

Public theologians are already thundering like prophets at climate change and racial injustice, but the gale force winds of natural science blow through society as well. The public theologian should be on storm watch.

This book explains why we should stop thinking of freedom as limited to a right to be left alone. It explores how Kantian philosophy and Jewish thought instead give rise to a concept of positive freedom. At heart, freedom is inextricably linked to the obligation to respect the autonomy and dignity of others. Freedom thus requires relationships with others and provides an important source of meaning in liberal democratic societies. While individualism is said to foster detachment, positive freedom fosters relations. Moving from moral theory to law, duties are seen as intrinsic to rights. The book considers test cases involving the law of expression regarding authorial rights and women's prayer at Jerusalem's holy site of the Western Wall. Affirmative duties of respect are essential rights.

held by copyright owners require that all authors including so called users are shown respect moreover rights held by the authorities at the western wall require that all worshippers including those whose interpretation of jewish law differs from that adopted by the authorities are respected

a collection of essays and research inquiries into the foundations of human dignity and the nature of guest host relationships what are the pleasures and dangers in the role of the stranger what are the assumptions and liberties of the host how do the guest and host roles relate to the designations of the self and the other how do we know when we are the host or the guest is it possible to mistake or underestimate one s role how might diversity privilege conflict and assumption affect the guest host relationship this text explores the many associations and callings of the host body as well as unique roles as guests and strangers in life vessels may hold a clearer picture of stewardship intentional being and the potential for conscious ambassadorship in a complex multi dimensional world dgn 1101 008
