the last century has seen enormous leaps in the development of digital technologies and most aspects of modern life have changed significantly with their widespread availability and use technology at various scales supercomputers corporate networks desktop and laptop computers the internet

tablets mobile phones and processors that are hidden in everyday devices and are so small you can barely see them with the naked eye all pervade our world in a major way computers and society modern perspectives is a wide ranging and comprehensive textbook that critically assesses the global technical achievements in digital technologies and how they are applied in media education and learning medicine and health free speech democracy and government and war and peace ronald m baecker reviews critical ethical issues raised by computers such as digital inclusion security safety privacy automation and work and discusses social political and ethical controversies and choices now faced by society particular attention is paid to new and exciting developments in artificial intelligence and machine learning and the issues that have arisen from our complex relationship with ai

mastering fear analyzes horror as play and examines what functions horror has and why it is adaptive and beneficial for audiences it takes a biocultural approach and focusing on emotions gender and play it argues we play with fiction horror in horror we engage not only with the negative emotions of fear and disgust but with a wide range of emotions both positive and negative the book lays out a new theory of horror and analyzes female protagonists in contemporary horror from child to teen adult middle age and old age since the turn of the millennium we have seen a new generation of female protagonists in horror there are feisty teens in the vampire diaries 2009 2017 troubled mothers in the babadook 2014 and struggling women in the new french extremity with martyrs 2008 and inside 2007 at the fuzzy edges of the genre are dramas like pan s labyrinth 2006 and black swan 2010 and middle age women are now protagonists with carol in the walking dead 2010 and jessica lange s characters in american horror story 2011 horror is not just for men but also for women and not just for the young but for audiences of all ages

agency security and governance of small states examines what seems to be a defining paradox of small state studies the simultaneous coexistence and possible co dependence of vulnerability and opportunity related to small state size this book analyses small states within the framework of this apparent paradox traditionally small state studies has focused on three guiding questions what constitutes a small state what explains small state influence in global affairs are small states truly vulnerable to security threats given the expansion of multilateralism and regionalism throughout the world this book contends that new questions should be asked which recognise the important shifts in twenty first century security paradigms to better understand how some states deploy their smallness as a resource for agency in supranational contexts by varying historical geographical security and governance contexts the book embraces a most different cases approach the historical perspective is often neglected in small state studies but contributes to understanding how small states have often over time transformed perceived insecurity into agency by focusing on different world

regions the authors enable the comparative analysis of collective actions and the creation and implementation of institutions for common sense purposes within a geographical region of particular contemporary importance the book includes contributions which contend with hard security issues alongside other soft security challenges the comparison of case studies confirms that hard security vulnerability and soft security opportunities seem to be two sides of the same coin which reinforces the book's focus on small state paradoxes and raises the question of whether smallness can be considered the defining characteristic of governance in these countries this book will have a broad appeal because of the different world regions it analyses it will be of interest to postgraduate students scholars and researchers of international relations security sustainability governance development and political economy as well as small state studies the chapters 4 8 and 11 of this book are freely available as downloadable open access pdfs at taylorfrancis.com under a creative commons attribution non commercial no derivatives cc by nc nd 4.0 license the publication of chapter 4 as open access has been made possible by the institute of history at the university of luxembourg the publication of chapter 8 as open access has been made possible by western sydney university the publication of chapter 11 as open access has been made possible by the university of hamburg
