this book helps beginning theological students grasp the basics of christian theology consciously avoiding the perspective of one school of thought or confessional tradition the authors provide the reader with a brief broad overview of the questions and contents of theological study their accessible use of language clear organization and careful explanation will prove of invaluable aid to those who are getting their theological feet wet for the first time in the words of its authors this book offers an introduction to the fuller spectrum of christian theology as it has developed through the centuries few writers address the historical development of the classic doctrines and the contemporary resonance as adroitly as gonzalez and perez the chapter on jesus christ for example presents concise summaries of the treatments of christ s person leading up to chalcedon while suggesting a need for a multiplicity of images in understanding the work of christ that liberates the whole person and restores all creation beginning students as a result are invited into a living theological conversation where the contested claims of the past have continued relevance in a contemporary era beset by its undervaluing of the body and creation broadly ecumenical in tenor with reference to theologians from nearly every century the work should appeal to both a popular readership and introductory students in college and seminary one disappointing aspect of the book is an absence of latino a feminist and liberation perspectives for a work that argues for the contextuality of all theology and from authors whose previous work has been monumental in hispanic theological education this lack is surprising david h jensen austin presbyterian theological seminary in religious studies review volume 29 number 3 july 2003

thomas n finger has chosen an approach to the systematic presentation of christian theology which i also have taken since the publication of my theology of hope in 1964 he begins with the goal with eschatology with that goal in mind a new light is cast on every single doctrine of christian theology the light of redemption and the work of the theologian becomes a labor of hope this is a theology of the way with the kingdom of god kept steadily in view it becomes an invitation to walk the way of jesus tom finger s theological prospectus makes a brilliant contribution to ecumenical theological dialogue from the anabaptist tradition he offers an eschatologically oriented theology for which i can only congratulate him jürgen moltmann professor of theology university of tübingen while many systematic theological texts are shaped by academic discussion of ancient thought and or modern philosophies finger centers on the kerygma of the biblical text that the last things or eschatological events expected at history s climax had already occurred through jesus life death and resurrection though they were not yet fully realized to present eschatology as a living hope that always has motivated and still motivates christians and christian communities in all things finger does not follow the discipline s traditional order where eschatology appears last but places it first volume ii will culminate with the doctrine of god which usually comes first this is hardly to minimize god s importance but to maximize it as the christian faith s most profound mystery volume i begins with eschatology to present it as a dynamic boundless atmosphere in which theological reflection unfolds while this dynamism envelops christian life and mission it is not merely subjective it is hope for the transformation of all creation it is not only celebrative for it also struggles against the gruesome evils that seek to dominate all things from this vantage point eschatology in volume i seeks to articulate the significance of the resurrection the last judgment heaven and hell the return of christ and the millenium s coming these reflections lead to revelation beginning from the final revelation of jesus christ 1 peter 1 3 13 revelation s dimensions are treated as personal as historical extending forwards from genesis and as propositional or its way of conveying its contents these point theological reflection to revelation s center jesus christ chiefly to his saving work in his life death and resurrection here the strengths and weaknesses of the traditional substitutionary and moral influence theories are examined but when placed within their revelational or historical sequence jesus conflict with the powers of evil stands out these prove to be gigantic systemic forces which have always ordered but also imprisoned humankind such as the roman empire yet

their horror and power stretch beyond any social or psychological explanation in jesus life and death these powers appear to conquer him but through his resurrection jesus conquers them this drama is best articulated by the christus victor approach in which jesus with his father and spirit defeats these powers but does not totally destroy them this is why their eschatological reign is already present but evil is not yet destroyed until the end

this highly acclaimed and widely used volume now in its third edition is a collaborative presentation of the chief christian doctrines in light of their traditional theological formulations their historical development and contemporary challenges joined by david tracy langdon gilkey edward farley sallie mcfague and many others hodgson and king explore the task of theology method scripture and traditions god revelation creation human being sin and evil christ and salvation church sacraments the spirit and christian life the reign of god other religions and the christian paradigm each chapter sets forth the primary shape and substance of a doctrine its historical development how that tradition has been challenged and transformed under the pressures of modern thought and new and persistent issues that set the agenda for future theological work written with intelligence and verve and newly updated christian theology has proven a superlative introduction to christianity s classical heritage and its future theological horizons companion volumes include readings in christian theology and reconstructing christian theology
