extreme toyota offers the first real comprehensive inside look at what makes one of the world s best companies run with unprecedented access to the inner working of toyota the authors spent six years researching the company interviewing hundreds of executives and employees and discovering the

company's secret of success what they uncovered will surprise you and change the way you think about business simultaneously rigidly traditional and seriously innovative it is precisely those internal contradictions that make the company so successful and admired

each volume in the 7 volume series the world of science education reviews research in a key region of the world these regions include north america south and latin america asia australia and new zealand europe and israel north africa and the middle east and sub saharan africa the focus of this handbook is on north american canada us science education and the scholarship that most closely supports this program the reviews of the research situate what has been accomplished within a given field in north american rather than international context the purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education the thrust lies in identifying the roots of research programs and sketching trajectories focusing the changing façade of problems and solutions within regional contexts the approach allows readers review what has been done and accomplished what is missing and what might be done next

toyota has become one of the world's greatest companies only because it developed the toyota production system right wrong say takeuchi osono and shimizu of hitotsubashi university in tokyo another factor overlooked until now is just as important to the company's success toyota's culture of contradictions tps is a hard innovation that allows the company to continuously improve the way it manufactures vehicles toyota has also mastered a soft innovation that relates to human resource practices and corporate culture the company succeeds say the authors because it deliberately fosters contradictory viewpoints within the organization and challenges employees to find solutions by transcending differences rather than resorting to compromises this culture generates innovative ideas that toyota implements to pull ahead of competitors both incrementally and radically the authors research reveals six forces that cause contradictions inside toyota three forces of expansion lead the company to change and improve impossible goals local customization and experimentation not surprisingly these forces make the organization more diverse complicate decision making and threaten toyota's control systems to prevent the winds of change from blowing down the organization the company also harnesses three forces of integration the founders values up and in people management and open communication these forces stabilize the company help employees make sense of the environment in which they operate and perpetuate toyota's values and culture emulating toyota isn't about copying any one practice it's about creating a culture and because the company's culture of contradictions is centered on humans who are imperfect there will always be room for improvement

betty cannon is the first to explore the implications of sartrean philosophy for the freudian psychoanalytic tradition drawing upon sartre s work as well as her own experiences as a practicing therapist she shows that sartre was a fellow traveler who appreciated freud s psychoanalytic achievements but rebelled against the determinism of his metatheory the mind sartre argued cannot be reduced to a collection of drives and structures nor is it enslaved to its past as freud s work suggested sartre advocated an existentialist psychoanalysis based on human freedom and the self s ability to reshape its own meaning and value through the sartrean approach cannon offers a resolution to the crisis in psychoanalytic metatheory created by the current emphasis on relational

needs by comparing sartre with freud and influential post freudians like melanie klein otto kernber margaret mahler d w winnicott heinz kohut harry stack sullivan and jacques lacan she demonstrates why the sartrean model transcends the limitations of traditional freudian metatheory in the process she adds a new dimension to our understanding of sartre and his place in twentieth century philosophy
