surviving and transcending a traumatic childhood the dark thread weaves together 90 stories of survival to create a silver lining of hope for those struggling to heal from childhood trauma this unique book documents the endless challenges facing children and adults who have been subjected to physical emotional and psychological abuse and examines the proactive coping strategies that have made their recoveries a success each poignant story reveals an amazing capacity for growth and an ability to adapt emotionally that offers a positive spirit to others suffering abuse

as the current master story of judaism the holocaust has been used to depict jews as being uniquely victimized in the fifty years since the jewish people have had two overriding concerns survival of the jewish people and keeping alive the tragedy of the holocaust in why should jews survive rabbi michael goldberg launches a bold attack on what he calls the holocaust cult the generation that founded israel is dying and the new generation seems adrift goldberg contends that uja death camp pilgrimages and shrines like the u s holocaust museum are deeply destructive of jewish identity this holocaust centered survival for survival s sake judaism is already showing its emptiness and goldberg insists that jews now need positive reasons for remaining jewish they need to return to the exodus as their master story the story that gave the jews a unique place in god s plan and one that provides for their survival because they are clearly the linchpin in god s redemption of the world this provocative book powerfully argues a challenge to the dominant theme of modern jewish thought and rabbi michael goldberg simultaneously offers practical and serious hope to sustain the next generation

medicine itself is sick we hardly understand any disease and therefore need to chronically treat symptoms but not the causes consequently drugs and other therapies help only very few patients yet we are pumping more and more money into our healthcare system without any added value thus the internationally renowned physician researcher harald schmidt predicts the

end of medicine as we know it on a positive note digitization will radically change healthcare and lead to one of the greatest socioeconomic revolutions of mankind he is one of the pioneers of systems medicine a complete redefinition of what we actually call a disease how we organize medicine and how we use big data to heal rather than treat to prevent rather than cure in this book the author first proves the deep crisis of medicine but describes how medicine will become more precise more uniform safer and surprisingly also more affordable making a diagnosis will be taken over by artificial intelligence current mainly organ based medical specialists disciplines and hospital departments will disappear physicians will become patient coaches working in interdisciplinary teams with pharmacists physiotherapists nutritionists etc and relieved of their workload illnesses including cancer will be prevented or cured in a precise manner we will become 100 years and older health care spending will shift from chronic treatment of diseases to prevention and health maintenance thereby dramatically reducing overall costs health will become a common good but harald schmidt also warns that those who are not open to digitization will not benefit from these advances and will be left behind anyone who wants to benefit from the revolution of medicine must have a digital twin is this futurism no each of us can have his or her personal genome sequenced microbiome analyzed keep an electronic health record the future has begun schmidt convincingly explains the limitations in the current practice of medicine and the need for big data and a systems approach prof ferid murad md phd nobel laureate in medicine 1998 usa network medicine a new discipline that offers a network based understanding of the cell and disease is unavoidable if we wish to translate the advances in genomics into cures professor harald schmidt a prominent expert in this space offers the first coherent treatment of the topic explaining the potential of a network based perspective of human disease prof albert lászló barabási northeastern university and harvard medical school boston usa visionary provocative and full of insights professor schmidt gives a unique and authoritative perspective to the past present and future of medical science and clinical practice and all presented in such an inimitable style prof robert f w moulds mbbs phd fraccp former dean royal melbourne hospital clinical school australia
