the single woman is a troubling and disruptive category does it denote all unmarried women therefore creating a group which every female was part of at some stage in her life or were the categories maiden and widow so culturally significant in late medieval england that single woman was a residual category for women seen as anomalous was the category single man used in an equivalent way and if not why this study offers a way into the complex process of social classification in late medieval england all societies use classifications in order to understand and impose order in this book cordelia beattie views classification as a political act an act of power those classifying must make choices about which divisions are most important or about who falls into which category and such choices have repercussions defining how a group or an individual should be labelled means variables such as social status gender or age are prioritized rather than isolate gender as a variable this book examines how it relates to other social cleavages using a variety of approaches from social and cultural history to gender history and medieval studies its original methodology offers an innovative approach to a range of historical texts from pastoral manuals to tax returns and guild registers
