this book focuses on the end of four centuries of ottoman rule in bosnia and herzegovina in the
1870s after an introduction to the region and the political zeitgeist of the late 1860s and early
1870s it examines in detail the dramatic years beginning in the summer of 1875 when the
outbreak of violent unrest in the eastern herzegovinian region bordering montenegro led to a
massive refugee catastrophe the study traces the surprising further political and social dynamics
to the summer and fall of 1878 when a habsburg army finally invaded the bosnian vilayet and
took control of the province but only after months of fighting against massive local resistance
throughout the province this book cannot be viewed in isolation from larger political dynamics
which are also constantly present in this study as they unfolded however as this book attempts to
show it is hardly possible to understand the often contradictory effects of these larger political
dynamics without delving deeper into the complex local rationalities and constraints on the action
of the actors involved in them the end of ottoman rule in bosnia will appeal to students teachers

and researchers in late ottoman and bosnian history

with the ever expanding presence of china in the global economy americans more and more look east for goods and trade but as caroline frank reveals this is not a new development china loomed as large in the minds and account books of eighteenth century americans as it does today long before they had achieved independence from britain and were able to sail to asia themselves american mariners merchants and consumers were aware of the east indies and preparing for voyages there focusing on the trade and consumption of porcelain tea and chinoiserie frank shows that colonial americans saw themselves as part of a world much larger than just britain and europe frank not only recovers the widespread presence of chinese commodities in early america and the impact of east indies trade on the nature of american commerce but also explores the role of the this trade in american state formation she argues that to understand how chinese commodities fueled the opening acts of the revolution we must consider the power dynamics of the american quest for china and china during the colonial period filled with fresh and surprising insights this ambitious study adds new dimensions to the ongoing story of america s relationship with china

monsters have taken many forms across time and cultures yet within these variations monsters often evoke the same paradoxical response disgust and desire we simultaneously fear monsters and take pleasure in seeing them and their role in human culture helps to explain this apparent contradiction monsters are created in order to delineate where the acceptable boundaries of action and emotion exist however while killing the monster allows us to cast out socially unacceptable desires the prevalence of monsters in both history and fiction reveals humanity s desire to see and experience the forbidden we seek write about and display monsters as both a warning and wish fulfilment and monsters therefore reveal that the line between desire and disgust is often thin looking across genres subjects and periods this book examines what our conflicted reaction to the monster tells us about human culture
