in riveting detail how america's premier industry stumbled, fell, and picked itself up again. The story begins in 1982 when Honda started building cars in Marysville, Ohio, and the entire U.S. car industry seemed to be on the brink of extinction. It ends just over a decade later with a remarkable turn of the tables as Japan's car industry falters and America's Big Three emerge as formidable global competitors. Comeback is a story propelled by larger-than-life characters: Lee Iacocca, Henry Ford II, Don Petersen, Roger Smith, among many others, and their greed, pride, and sheer refusal to face facts. But it is also a story full of dedicated, unlikely heroes who struggled to make the Big Three change before it was too late.

Popular Mechanics inspires, instructs, and influences readers to help them master the modern world, whether it's practical DIY home improvement tips, gadgets, and digital technology information on the newest cars or the latest breakthroughs in science.
