this essay examines the primacy of worldbuilding in the age of cgi transmedia practices and high concept fiction by studying the principles that govern the creation of a multiverse in a wide range of film and tv productions emphasis is

placed on hollywood sci fi movies and their on screen representation of imaginary machines that mirror the film medium following in the tradition of philip k dick s writings and the cyberpunk culture a typology of worlds is established as well as a number of analytical tools for assessing the impact of the coexistence of two or more worlds on the narrative structure the style uses of color editing practices the generic affiliation or hybridity the seriality and the discourse produced by a given film particularly in fictions linked to post 9 11 fantasies among the various titles examined the reader is offered a detailed analysis of the resident evil film series total recall and its remake dark city the matrix trilogy avatar source code and other time loop films tron and its sequel christopher nolan s tenet and several tv shows most notably hbo s westworld but also sliders lost fringe and counterpart

a successful screenplay starts with an understanding of the fundamentals of dramatic story structure in this practical introduction edward j fink condenses centuries of writing about dramatic theory into ten concise and readable chapters providing the tools for building an engaging narrative and turning it into an agent ready script fink devotes chapters to expanding on the six basic elements of drama from aristotle s poetics plot character theme dialogue sound and spectacle the theory and structure of comedy as well as the concepts of unity metaphor style universality and catharsis key terms and discussion questions encourage readers to think through the components of compelling stories and put them into practice and script formatting guidelines ensure your finished product looks polished and professional dramatic story structure is an essential resource not only for aspiring screenwriters but also for experienced practitioners in need of a refresher on the building blocks of storytelling

john williams is one of the most renowned film composers in history he has penned unforgettable scores for star wars the indiana jones series e t the extra terrestrial jaws superman and countless other films fans flock to his many concerts and with forty nine academy award nominations as of 2014 he is the second most oscar nominated person after walt disney yet despite such critical acclaim and prestige this is the first book in english on williams s work and career combining accessible writing with thorough scholarship and rigorous historical accounts with insightful readings john williams s film music explores why williams is so important to the history of film music beginning with an overview of music from hollywood s golden age 1933 58 emilio audissino traces

the turning points of williams s career and articulates how he revived the classical hollywood musical style this book charts each landmark of this musical restoration with special attention to the scores for jaws and star wars williams s work as conductor of the boston pops orchestra and a full film music analysis of raiders of the lost ark the result is a precise enlightening definition of williams s neoclassicism and a grounded demonstration of his lasting importance for both his compositions and his historical role in restoring part of the hollywood tradition best special interest books selected by the american association of school librarians best books for general audiences selected by the public library reviewers

the field of film music studies has been increasingly dominated by musicologists this book brings the discipline back squarely into the domain of film studies offering an approach in which music and visuals are seen as equal players in the game blending neoformalism with gestalt psychology and leonard b meyer s musicology this study treats music as a cinematic element offering scholars and students of both music and film a set of tools to help them analyse the wide ranging impact that music has in films this second edition provides an updated survey of the field and a new chapter featuring additional case studies including a novel analytical category for studying the contemporary sound design style film music

essays and case studies exploring how filmmaking can play a role in promoting social and economic justice bringing theory and practice together african cinema and human rights argues that moving images have a significant role to play in advancing the causes of justice and fairness the contributors to this volume identify three key ways in which film can achieve these goals documenting human rights abuses and thereby supporting the claims of victims and goals of truth and reconciliation within larger communities legitimating and consequently solidifying an expanded scope for human rights promoting the realization of social and economic right including the voices of african scholars scholar filmmakers african directors jean marie teno and gaston kaboré and researchers whose work focuses on transnational cinema this volume explores overall perspectives and differences of perspective pertaining to africa human rights and human rights filmmaking alongside specific case studies of individual films and areas of human rights violations with its interdisciplinary scope attention to practitioners self understandings broad perspectives and particular

commentators have noted the extraordinary impact of popular culture on legal practice courtroom proceedings police departments and government as a whole and it is no exaggeration to say that most people derive their basic understanding of law from cultural products movies television programs fiction children s literature online games and the mass media typically influence attitudes and impressions regarding law and legal institutions more than law and legal institutions themselves law and popular culture international perspectives enhances the appreciation of the interaction between popular culture and law by underscoring this interaction s multinational and international features two dozen authors from nine countries invite readers to consider the role of law related popular culture in a broad range of nations socio political contexts and educational environments even more importantly selected contributors explore the global transmission and reception of law related cultural products and in particular the influence of assorted works and media across national borders and cultural boundaries the circulation and consumption of law related popular culture are increasing as channels of mass media become more complex and as globalization runs its uncertain course law and popular culture international perspectives adds to the critical

understanding of the worldwide interaction of popular culture and law and encourages reflection on the wider implications of this mutual influence across both time and geography

since 2006 leading opera companies have beamed their shows to thousands of cinema screens all over the world live opera cinema is the most successful marriage of this elaborate esoteric art form and the silver screen in the twenty first century more people watch opera on cinema screens than the stage but what is different about watching massenet at the multiplex compared to a traditional stage performance is opera cinema a new hybrid art form in its own right or merely a new way of engaging with an old one is it bringing new opera fans into the fold is there a danger it could one day eclipse the stage altogether this book deals with these questions by charting the history of opera transmissions exploring how digital media changes our relationship with culture and inviting a group of opera virgins to give their impressions on this developing cultural experience

a handbook of media and communication research presents qualitative as well as quantitative approaches to the study of media and communication integrating perspectives from both the social sciences and the humanities taking methodology as a strategic level of analysis that joins practical concerns with theoretical issues the handbook offers a comprehensive and in depth review of the field and a set of guidelines for how to think about plan and carry out media and communication studies in different social and cultural contexts the second edition has been thoroughly updated with reference to the development of the internet mobile and other digital media each chapter addresses shifting configurations of established media organizations media discourses and media users in networked practices of communication the introduction and one further chapter probe changing conceptions on mass and interpersonal online and offline communication in research as in everyday life three new chapters have been added to exemplify different forms of research employing multiple methods to study multiple media in multiple contexts list of contributors klaus bruhn jensen barrie gunter rasmus helles annette hill stig hjarvard peter larsen amanda lotz graham murdock horace newcomb paddy scannell lynn schofield clark kim christian schrøder

examining post 1990s indie cinema alongside more mainstream films brereton explores the emergence of smart independent sensibility and how films break

the classic linear narratives that have defined hollywood and its alternative art cinema the work explores how bonus features on contemporary smart films speak to new generational audiences

for nearly two decades television critical methods and applications has served as the foremost guide to television studies designed for the television studies course in communication and media studies curricula television explains in depth how television programs and commercials are made and how they function as producers of meaning author jeremy g butler shows the ways in which camera style lighting set design editing and sound combine to produce meanings that viewers take away from their television experience he supplies students with a whole toolbox of implements to disassemble television and read between the lines teaching them to incorporate critical thinking into their own television viewing the fourth edition builds upon the pedagogy of previous editions to best accommodate current modes of understanding and teaching television highlights of the fourth edition include new chapter and part organization to reflect the current approach to teaching television with greatly expanded methods and theories chapters an entirely new chapter on modes of production and their impact on what you see on the screen discussions integrated throughout on the latest developments in television s on going convergence with other media such as material on transmedia storytelling and youtube s impact on video distribution over three hundred printed illustrations including new and better quality frame grabs of recent television shows and commercials a companion website featuring color frame grabs a glossary flash cards and editing and sound exercises for students as well as powerpoint presentations sample syllabi and other materials for instructors links to online videos that support examples in the text are also provided with its distinctive approach to examining television television is appropriate for courses in television studies media criticism and general critical studies

this book is a first attempt to map the broad context of performance studies from a multimodal perspective it collects original research on traditional performing arts theatre dance opera live durational performance and mediated recorded performances films television shows as well as performative discursive practices on social media by adopting several theories and methodologies all dealing with the notion of multimodality as a mostly dynamic and also interactive environment for various text types and genres the context of

performance studies provides many opportunities to produce meaning verbally and non verbally all chapters in this book develop frameworks for the analysis of performance related events and activities and explore empirical case studies in a range of different ages and cultures a further focus lies on the communicative strategies deployed by different communities of practice taking into account processes of production distribution and consumption of such texts in diverse spatial and temporal contexts

now in its second edition this book explores a great variety of genres and formats of young adult literature while placing special emphasis on contemporary works with nontraditional themes protagonists and literary conventions that are well suited to young adult readers it looks at the ways in which contemporary readers can access literature and share the works they re reading and it shows teachers the resources that are available especially online for choosing and using good literature in the classroom and for recommending books for their students personal reading in addition to traditional genre chapters this book includes chapters on literary nonfiction poetry short stories and drama and film graphic novels diversity issues and uses of technology are also included throughout the text the book s discussion of literary language including traditional elements as well as metafictional terms enables readers to share in a literary conversation with their peers and others when communicating about books this book is an essential resource for preservice educators to help young adults understand and appreciate the excellent literature that is available to them new to the second edition new popular authors books and movies with a greater focus on diversity of literature updated coverage of new trends such as metafiction a renewed focus on nonfiction and retellings of canonical works increased attention to graphic novels and multimodal texts throughout the book resources with downloadable materials including book lists awards lists and focus questions

media in general and narrative media in particular have the potential to represent not only a variety of both possible and actual worlds but also the perception and consciousness of characters in these worlds hence media can be understood as qualia machines as technologies that allow for the production of subjective experiences within the affordances and limitations posed by the conventions of their specific mediality this edited collection examines the transmedial as well as the medium specific strategies employed by the verbal

representations characteristic for literary texts the verbal pictorial representations characteristic for comics the audiovisual representations characteristic for films and the interactive representations characteristic for video games combining theoretical perspectives from analytic philosophy cognitive theory and narratology with approaches from phenomenology psychosemiotics and social semiotics the contributions collected in this volume provide a state of the art map of current research on a wide variety of ways in which subjectivity can be represented across conventionally distinct media

sound design theory and practice is a comprehensive and accessible guide to the concepts which underpin the creative decisions that inform the creation of sound design a fundamental problem facing anyone wishing to practice study teach or research about sound is the lack of a theoretical language to describe the way sound is used and a comprehensive and rigorous overarching framework that describes all forms of sound with the recent growth of interest in sound studies there is an urgent need to provide scholarly resources that can be used to inform both the practice and analysis of sound using a range of examples from classic and contemporary cinema television and games this book provides a thorough theoretical foundation for the artistic practice of sound design which is too frequently seen as a technical or secondary part of the production process engaging with practices in film television and other digital media sound design theory and practice provides a set of tools for systematic analysis of sound for both practitioners and scholars

analyzing the visual culture of public health from the nineteenth century to the present

this book argues for dynamic and relevant school experiences for primary and early secondary learners that embed digital media production it proposes a vision of literacy that combines new technologies with multiple modes of meaning making drawing on theories related to cultural studies media literacy anthropology and creativity the author explores learning strategies with digital media based on an empowering values driven framework the book advances innovative teaching methods critiquing educational reforms that marginalise media and fail to engage with the complex tensions and textures of modern pedagogy positioning film and media making as vital practices in schools that nurture the skills dispositions and competencies of modern literacy the model foregrounds connections between human agency cognition and creative

practice this innovative book will appeal to students and scholars of creativity digital media production primary education and literacy

this book combines insights from the humanities and modern neuroscience to explore the contribution of affect and embodiment on meaning making in case studies from animation video games and virtual worlds as we interact more and more with animated characters and avatars in everyday media consumption it has become vital to investigate the ways that animated environments influence our perception of the liberal humanist subject this book is the first to apply recent research on the application of the embodied mind thesis to our understanding of embodied engagement with nonhumans and cyborgs in animated media analyzing works by Émile cohl hayao miyazaki tim burton norman mclaren the quay brothers pixar and many others drawing on the breakthroughs of modern brain science to argue that animated media broadens the viewer s perceptual reach this title offers a welcome contribution to the growing literature at the intersection of cognitive studies and film studies with a perspective on animation that is new and original affect and embodied meaning in animation will be essential reading for researchers of animation studies film and media theory posthumanism video games and digital culture and will provide a key insight into animation for both undergraduate and graduate students because of the increasing importance of visual effect cinema and video games the book will also be of keen interest within film studies and media studies as well as to general readers interested in scholarship in animated media
