howard smither has written the first definitive work on the history of the oratorio since arnold schering published his geschichte des oratoriums in 1911 this volume is the first of a four volume comprehensive study that offers a new synthesis of what is known to date about the oratorio volume 1 divided into three parts opens with the examination of the medieval renaissance and early baroque antecedents and origins of

the oratorio with emphasis on rome and philip neri's congregation of the oratory and with special attention to the earliest works for which the term oratorio seems appropriate the second part recounts the development of the oratorio in italy circa 1640 1720 it reviews the social contexts patrons composers poets librettos and music of the oratorio in italy especially in vienna and paris the procedure adapted throughout the work is to treat first the social context particularly the circumstances of performance of the oratorio in a given area and period then to treat the libretto and finally the music for each geographic area and period the author has selected for special attention a few oratorios that appear to be particularly important or representative he has verified the information offered in the specialized literature whenever possible by reference to the music or documents in a number of areas particular seventeenth century italy in which relatively few previous studies have been undertaken or secondary sources have proven to be inadequate the author has examined the primary sources in manuscript and printed form music librettos and documents of early oratorio history impressive research and intelligent integration of disparate elements make this complicated diffuse subject both readable and accessible to the student of music volume 2 the oratorio in the baroque era protestant germany and england and volume 3 the oratorio in the classical era continue and expand the study of oratorio history although this series was originally announced as a three volume study smithers will conclude with a fourth volume this new work the first english language study of the history of the oratorio will become the standard work on its subject and an enduring contribution to music and scholarship originally published in 1977 a UNC Press enduring edition UNC Press enduring editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print these editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

this book gives a comprehensive picture of the activities and the creative heritage of simon stevin who made outstanding contributions to various fields of science in particular physics and mathematics among the striking spectrum of his ingenious achievements it is worth emphasizing that simon stevin is rightly considered as the father of the system of decimal fractions as it is in use today stevin also urged the universal use of decimal fractions along with standardization in coinage measures and weights this was a most visionary proposal stevin was the first since archimedes to make a significant new contribution to statics and hydrostatics he truly was homo universalis the impact of stevin's work has been multilateral and worldwide including literature william shakespeare science from christian huygens to richard feynman politics thomas jefferson and many other fields thomas jefferson together with alexander hamilton and robert morris advocated introducing the decimal monetary units in the usa with reference to the book de thiende by s stevin and in particular to the english translation of the book disme the art of tenths by robert norton in accordance with the title of this translation the name of the first silver coin issued in the usa in 1792 was disme since 1837 the spelling changed to dime it was considered as a symbol of national independence of the usa

for the middle ages and renaissance meaning and power were created and propagated through public performance processions coronations speeches trials and executions are all types of public performance that were both acts and texts acts that originated in the texts that gave them their ideological grounding texts that bring to us today a trace of their actual performance literature as well as for the pre modern public a type of performance throughout the medieval and early modern periods we see a constant tension and negotiation between the oral aural delivery of the literary work and the eventual silent read reception of

its written text the current volume of essays examines the plurality of forms and meanings given to performance in the middle ages and renaissance through discussion of the essential performance text relationship the authors of the essays represent a variety of scholarly disciplines and subject matter from the performed life of the dominican preacher to coronation processions to book presentations from satirical music speeches to the rendering of widow portraits to the performance of romance and pious narrative diverse in their objects of study the essays in this volume all examine the links between the actual events of public performance and the textual origins and subsequent representation of those performances
