a theoretically driven comparison of sustainability programs in american cities updated with the latest research and additional case studies today most major cities have undertaken some form of sustainability initiative yet there have been few systematic comparisons across cities or theoretically grounded considerations of what works and what does not and why in taking sustainable cities seriously kent portney addresses this gap offering a comprehensive overview and analysis of sustainability programs and policies in american cities after discussing the conceptual underpinnings of sustainability he examines the local aspects of sustainability considers the measurement of sustainability and offers an index of serious sustainability for the fifty five largest cities in the country examines the relationship between sustainability and economic growth and discusses issues of governance equity and implementation he also offers extensive case studies with separate chapters on large medium size and small cities and provides an empirically grounded analysis of why some large cities are more ambitious than others in their sustainability efforts this second edition has been updated throughout with new material that draws on the latest research it also offers numerous additional case studies a new chapter on management and implementation issues and a greatly expanded comparative analysis of big city sustainability initiatives portney shows how cities use the broad rubric of sustainability to achieve particular political ends and he dispels the notion that only cities that are politically liberal are interested in sustainability taking sustainable cities seriously draws a roadmap for effective sustainability initiatives

the only comprehensive text to focus on trauma stress crisis and disaster counseling from a clinical practice perspective this overarching text intended both for mental health practitioners in training and for practicing clinicians focuses on the impact of stress crisis trauma and disaster on diverse populations across the lifespan as well as on effective treatment strategies the second edition is newly grounded in a trauma scaffold providing foundational information that therapists can build upon step by step to treat individuals affected by more complex trauma events this resource newly addresses the mental health implications of covid 19 which has had an enormous impact on multitudes of people since the beginning of the pandemic its repercussions likely to continue for some time into the future the text also is updated to provide the most recent diagnostic information regarding trauma in the dsm 5 two new chapters address the confluence of crises related to anthropogenic climate change and the effects of mass violence this unrivalled resource emphasizes stress management and crisis intervention skills as important building blocks for working with more complex issues of trauma and disaster

it underscores the idea that trauma must be approached from multiple perspectives and in multiple dimensions encompassing individual community societal and systemic implications along with multicultural and diversity frames of reference the text integrates the latest findings from neuropsychology and psychopharmacology with an emphasis on polyvagal theory additionally the text highlights the importance of clinical supervision in trauma care and examines ethical dimensions and the need for self care among trauma counselors purchase includes digital access for use on most mobile devices or computers new to the second edition reconceptualizes the text with the concept of a trauma scaffold as a foundation upon which to understand and develop treatment for increasingly complex trauma events addresses the covid 19 pandemic and its profound effect on the mental health of vast numbers of people includes two new chapters on the confluence of crises related to anthropogenic climate change and the effects of mass violence includes powerpoint slides to accompany an updated instructor s manual key features delivers both introductory and advanced clinical information addressing complex trauma addresses trauma from a bioecological framework with emphasis on trauma informed practices multicultural pluralism diversity and social justice considers neurobiological responses to trauma with new research and the contributions of polyvagal theory examines individual familial community society and systemic understandings of stress crisis trauma and disaster includes a wealth of resources for further study text boxes and case studies to reinforce learning

biblical eschatology provides what is not found in any other single volume on eschatology it analyzes all the major eschatological passages including the olivet discourse and the book of revelation issues including the second coming of christ the millennium the rapture and antichrist and positions including all the major views of the millennium in a clear but not superficial way the book concludes with a chapter showing how eschatology is relevant for our lives biblical eschatology makes understanding eschatology easier by including chapters on how to interpret prophecy and apocalyptic literature by showing the history of eschatological thought and by placing eschatology in the context of the bible s overall story line and structure clarity and understanding are enhanced by the use of comparative tables and appendices subject and scripture indexes are included the book interacts with the best of evangelical and reformed scholarship and the extensive bibliography which includes the web addresses of many online resources provides an excellent source for the reader s further study this is a perfect resource for intelligent christians including pastors students and teachers who desire to understand eschatology and to see how it fits together with the rest of the bible
