recently sustainability has become a focal point for companies across all sizes and sector and the luxury industry is no exception this shift reflects a growing

awareness of the environmental social and community impacts of business activities however integrating sustainability into the luxury industry poses unique challenges due to the apparent mismatch between luxury and sustainability while luxury often connotes indulgence and opulence sustainability emphasizes altruism ethical practices and moderation seemingly conflicting with traditional luxury values this book first attempts to resolve the abovementioned divergence between luxury and sustainability thanks to an in depth analysis of the definition of luxury the authors demonstrate that sustainability is in line with the young consumers idea of luxury moreover leveraging a structured review the book organizes the scientific production on sustainable luxury in the research area and explains the reasons for matching luxury and sustainability then this book also attempts to explain to what extent luxury brand companies are improving their commitment to sustainable actions in this endeavor the authors explore the fundamental issues within sustainable luxury and the integration of sustainability into the corporate business model the explorations also include the companies efforts to communicate sustainability both offline and online with a focus on the themes and tools finally this book offers a benchmark by providing the audience with several business cases the discussion of case studies aims to meet the needs of a wide and varied audience from university students to csr managers looking to extract valuable insights and adapt them to their respective business contexts

lists citations with abstracts for aerospace related reports obtained from world wide sources and announces documents that have recently been entered into the nasa scientific and technical information database
