in this updated edition cathy vatterott examines the role homework has played in the culture of schooling over the years how such factors as family life the media and homework gap issues based on shifting demographics have affected the homework controversy and what recent research as well as common sense tell us about the effects of homework on student learning she also explores how the current homework debate has been reshaped by forces including the common core a pervasive media and technology presence the mass hysteria of

achievement culture and the increasing shift to standards based and formative assessment the best way to address the homework controversy is not to eliminate homework instead the author urges educators to replace the old paradigm characterized by long standing cultural beliefs moralistic views and behaviorist philosophy with a new paradigm based on the following elements designing high quality homework tasks differentiating homework tasks deemphasizing grading of homework improving homework completion and implementing homework support programs numerous examples from teachers and schools illustrate the new paradigm in action and readers will find useful new tools to start them on their own journey the end product is homework that works for all students at all levels

entrepreneurship that is something you learn in practice entrepreneurship is learning by doing this is often heard when you tell others that you teach entrepreneurship but maybe entrepreneurship is more doing by learning nevertheless in entrepreneurship practice and theory are intertwined for this reason the learning cycle introduced by Kolb 1984 is an often used teaching approach according to this learning cycle there are four phases cycle that are connected 1 concrete experience doing experiencing 2 reflection reflecting on the experience 3 conceptualization learning from the experience 4 experimentation bring what you learned into practice in teaching you can enter this cycle at any stage depending on the students and that brings us to the different types of students based on Hills et al 1998 a plethora of student groups can be distinguished of course this list is not exhaustive e g ph d students who do a doctoral programme in entrepreneurship the

emphasis is on theory science dba students who do a doctoral programme that is in comparison to the ph d more practice oriented mba students who take entrepreneurship as one of the courses in their programme most of the time mba students are mature students who after some work experience return to the university the programme is practice oriented
