a history of the holocaust is a detailed factual account of what happened across europe during the holocaust with balanced coverage of each country the holocaust was unique within the context of the second world war because jews were disproportionately represented among the civilian casualties in that conflict over fifty million people died as a result of the application of total war twelve per cent of these were jews at the time jews constituted less than one quarter of one per cent of the world s population this book is intended as a textbook not a philosophical interpretation of the holocaust written in a highly

accessible style it is addressed to students and will inspire them to read more about the subject and to question the problems of the world

could the allies have prevented the deaths of tens of thousands of holocaust victims inspired by a conference held to mark the opening of the us holocaust memorial museum this book brings together the key contributions to this debate

in march 1942 at the age of 25 kindergarten teacher magda hellinger was deported from her hometown in slovakia along with 998 other young women they

were some of the first jews to be sent to the auschwitz concentration camp very few would survive the next three years until liberation the ss soon discovered that by putting prisoners in day to day charge of the accommodation blocks and even the camps at large so called blockälteste and lagerälteste respectively they could both reduce the number of guards required to use these leaders to deflect attention away from themselves magda was one such jewish prisoner selected for leadership like many others during the war she found herself constantly treading a fine line how to save lives if only a few at a time while avoiding being too soft and likely sent to the gas chambers through her own inner strength and ingenuity she was able to rise above the horror and cruelty of the camps and build pivotal relationships with the women under her watch and some of auschwitz s most notorious nazi senior officers based on magda s own personal account and completed by her daughter s extensive research this awe inspiring story offers us incredible insight into human nature under the pressure to survive the power of resilience and the goodness that can shine through even in the most horrific of conditions

what is the difference between writing a novel about the holocaust and fabricating a memoir do narratives about the holocaust have a special obligation to be truthful that is faithful to the facts of history or is it okay to lie in such works in her provocative study a thousand darknesses ruth franklin investigates these questions as they arise in the most significant works of holocaust fiction from tadeusz borowski s auschwitz stories to jonathan safran foer s postmodernist family history franklin argues that the memory obsessed culture of the last few decades has led us to mistakenly focus on testimony as the only valid form of holocaust writing as even the most canonical texts have come under scrutiny for their fidelity to the facts we have lost sight of the essential role that imagination plays in the creation of any literary work including the memoir taking a fresh look at memoirs by elie wiesel and primo levi and examining novels by writers such as piotr rawicz jerzy kosinski w g sebald and wolfgang koeppen franklin makes a persuasive case for literature as an equally vital vehicle for understanding the holocaust and for memoir as an equally ambiguous form the result is a study of immense depth and range that offers a lucid view of an often cloudy field

a shocking account of nazi genocide and the inhuman conditions in auschwitz but equally shocking is the initial disbelief with which the revelations were met alfred wetzler was a true hero his escape from auschwitz and the report he helped compile telling for the first time the truth about the camp as a place of mass murder led directly to saving the lives of 120 000 jews no other single act in the second world war saved so many jews from the fate that hitler and the ss had determined for them sir martin gilbert together with another young slovak jew rudolf vrba both deported in 1942 the author succeeded in escaping from the notorious death camp in the spring of 1944 there were some very few successful escapes from auschwitz during the war but it was these two who smuggled out the damning evidence a ground plan of the camp constructional details of the gas chambers and crematoriums and most convincingly a label from a canister of cyclone gas the book is cast in the form of a novel to allow information not personally collected by the two fugitives but provided for them by a handful of reliable friends to be included nothing however has been invented from the introduction by dr robert rozett wetzler is a master at evoking the universe of auschwitz and especially his and vrba s harrowing flight to slovakia the day by day account of the tremendous difficulties the pair faced after the nazis had called off their search of the camp and its surroundings is both riveting and heart wrenching shining vibrantly through the pages of the memoir are the tenacity and valor of two young men who sought to inform the world about the greatest outrage ever committed by humans against their fellow humans

czechoslovakia yugoslavia no longer on the map east europe of the socialist period may seem like a historical oddity apparently so different from everything before and after yet the masterpieces of literature and cinema from this largely forgotten second world as well as by the authors formed in it and working in its aftermath surprise and delight with their contemporary resonance this book

introduces and illuminates a number of these works it explores how their aesthetic ingenuity discovers ways of engaging existential and universal predicaments such as how one may survive in the world of victimizations or imagine a good city or broach the human boundaries to live as a plant like true classics of world art these novels stories and films to rephrase bohumil hrabal keep telling us things about ourselves we don t know in lively and jargon free prose gordana p crnkovic builds on her rich teaching experience to create paths to these works and reveal how they changed lives
