This sixth part of the multi-volume handbook of detergents focuses on the production of surfactants, builders, and other key components of detergent formulations, including the various multi-dimensional aspects and implications on detergent formulations and applications domestically, institutionally, in industry, and agriculture, with all the environmental consequences involved. Thus, part f constitutes a comprehensive treatise of the multi-dimensional issues relating to this industry, production technology, emphasizing the alignment of scientific knowledge and up-to-date technological and technical know-how with the relevant contemporary applied practice. An international effort and industry-academia collaboration, this volume features expert contributions focusing on the contemporary state of the art concerning the many facets of the production of detergents and surfactants. Thus, the handbook of detergents, part f, production, deals with the production of anionic, cationic, nonionic, and amphoteric surfactants, key builders, bleaching and whitening agents, enzymes, and other components of detergent formulations in different contexts, gauges, and related concerns, and discusses various technological procedures of production processes involving the components of surfactants and detergents.
