until 1806 rabbi nahman of bratslav 1772 1810 disseminated his thoughts on redemption through homilies in 1806 however nahman chose the genre of tales as an additional and innovative means of religious discourse an academic close reading of all of the tales known as sippurey ma asiyot has not yet been undertaken as the first comprehensive scholarly work on the whole selection of tales and contrary to previous scholarship this book does not reduce the tales to biographical expressions of nahman's tormented soul and messianic aspirations instead it treats them as religious literature where the concept

of intertextuality is considered essential to explain how Nahman defines his theology of redemption and invites his listeners and readers to appropriate his religious world view

Now ten years after her husband's death Janet Jeppson Asimov has carefully mined the depths of Asimov's most personal thoughts about his life and work. She lovingly combines these with revealing excerpts from his letters to create an intimate portrait of a genius whose tireless passion for writing is evident on every page.

This book comprises the proceedings of the International Perm Forum Science and Global Challenges of the 21st century held on October 18th-23rd 2021 at Perm State University, Perm, Russia. Global challenges which determine the main trends in the development of social and economic life in the XXI century require the integration of specialists in various fields of knowledge. That is why the main principle of this edition is interdisciplinarity: the formation of end-to-end innovation chains including fundamental and applied research and the wide application of smart innovations networks and information technologies. The authors seek to find synergy between technologies and such fields as computer science, geosciences, biology, linguistics, social studies, historical studies, and economics. The book is of interest to researchers seeking nontrivial solutions at the interface of sciences, digital humanities, computational linguistics, cognitive studies, machine learning, and others.
