every year billions of animals are raised and killed by human beings for human consumption what should we think of this practice in what

ways if any is it morally problematic this volume collects twelve new essays by leading moral philosophers examining some of the most important aspects of this topic

the world's most comprehensive well documented and well illustrated book on this subject with extensive subject and geographic index 48 photographs and illustrations mostly color free of charge in digital pdf format

the thirteen essays in this volume explore for the first time the possible skeptical implications of disagreement in different areas and from different perspectives with an emphasis in the current debate about the epistemic significance of disagreement they represent a new contribution to the study of the connection between disagreement and skepticism in epistemology metaethics ancient philosophy and metaphilosophy

the book answers 10 questions addressed to the author in various forms some are personal while others relate to global issues all are answered with candor and detailed explanation the answers will not suit those who seek confirmation of popular viewpoints nor will they suit those who insist they are doing good without having knowledge of what they are really doing but they will admirably suit those extremely important persons from all walks of life who are open to new knowledge who can accept challenges to their beliefs and received knowledge the answers cover such topics as why livestock are critical to food security why free trade and markets can't solve food shortages why aid shouldn't insist poor countries follow our model how to reconcile science and commerce with popular ideals how gross domestic happiness can be a serious topic how more food can be produced with less land and fertilizer why labels like buddhist and vegetarian confuse life what traditional wisdom is critical to development how misrepresentation fuels fears about climate change why small farmers and foreign agribusiness must coexist

in its role as a scriptural charter vinaya has justified widely dissimilar approaches to religious life as buddhist orders in different times and places have interpreted it in contradictory ways in the resulting tension between scripture and practice certain kinds of ceremonial issues such as those involving lineage seniority initiation purification repentance visualization vows ordination acquire profound social psychological doctrinal and soteriological significance in buddhism going forth focuses on these issues over a wide sweep of history from early fifth century china to modern japan to provide readers with a rich overview of the intersection of doctrinal ritual and institutional concerns in the development of east asian buddhist practices despite the crucial importance of vinaya especially for understanding buddhism in east asia very little scholarship in western languages exists on this fascinating topic the essays presented here written by senior scholars in the field go beyond the timeworn method of relying on prescriptive accounts in the scriptures to describe what imaginary buddhists must have done or do rather they address how actual peo

in the last two decades a new form of religiously motivated social action and a virtually new field of academic study each based in recognition of the connections between religion and humanity's treatment of the environment have developed interactions between religion and environmental concern have been manifest in the explosive growth of ecotheological writings institutional commitment by organized religions and environmental activism explicitly oriented to religious ideals clergy throughout the world in virtually every denomination have received word from leaders of their religion that the environment no less than sexuality poverty or war and peace is now a basic and compelling religious matter out of this confrontation have been born vital new theologies based in the recovery of marginalized elements of tradition profound criticisms of the past and ecologically oriented visions of god the sacred the earth and human beings theologians from every religious tradition along with dozens of non denominational spiritual writers have confronted world religions past attitudes towards nature in the realm of institutional commitment public statements and actions by organized religions have grown dramatically in the context of political action throughout the u s and the world religiously oriented groups take part in environmentally oriented political action from lobbying and consciousness raising to activist demonstrations and civil disobedience this collection serves as a comprehensive introduction overview and in depth account of these exciting new developments the four volumes cover virtually every aspect of the field from theological change and institutional commitment to innovation in liturgy from new ecumenical connections among different religions and between religion science and environmental movements from religious participation in environmental politics to an account of the global social and political contexts in which religious environmentalism has unfolded
