this volume explores the complex horizon of landscapes in horror film culture to better understand the use that the genre makes of settings locations spaces and places be they physical imagined or altogether imaginary in the philosophy of horror Noël Carroll discusses the geography of horror as often situating the filmic genre in liminal spaces as a means to displace the narrative away from commonly accepted social structures this use of space is meant to trigger the audience s innate fear of the unknown this notion recalls Freud s theorization of the uncanny as it is centered on recognizable locations outside of the Lacanian symbolic order in some instances a location may act as one of the describing characteristics of evil itself in a nightmare on Elm Street teenagers fall asleep only to be dragged from their bedrooms into Freddy Krueger s labyrinthine lair an inescapable boiler room that enhances Freddie s powers and makes him invincible in other scenarios the action may take place in a distant little known country to isolate characters Roth s Hostel films or as a way to mythicize the very origin of evil Bava s Black Sunday finally anxieties related to the encroaching presence of technology in our lives may give rise to postmodern narratives of loneliness and disconnect at the crossing between virtual and real places in Kurosawa s Pulse the internet acts as a gateway between the living and spirit worlds creating an oneiric realm where the living vanish and ghosts move to replace them this suggestive topic begs to be further investigated this volume represents a crucial addition to the scholarship on horror film culture by adopting a transnational comparative approach to the analysis of formal and narrative concerns specific to the genre by considering some of the most popular titles in horror film culture alongside lesser known works for which this anthology represents the first piece of relevant scholarship

sustainability and the city urban poetics and politics contributes to third generation discourse on sustainable development by considering through a humanistic lens theories and practices of sustainability in a wide range of urban cultures it demonstrates cities inextricability from discussions on sustainability because not only is the world urbanizing at an unprecedented rate but also cities are primary locations of the circulation of excess capital socioeconomic divisions and hierarchies political resistance

friction between human and non human worlds and the confluence of art policy and identity formation in placemaking with essays by scholars working in a variety of fields from architecture to literature to music to sociology this collection maintains that any hope for achieving urban sustainability will require taking seriously the ways in which cities are imagined efforts to make cities sustainable must fully incorporate the humanities because critical endeavors and creative expressions that fall within the purview of the humanities are vital to closing the conceptual gulf as well as the practical gap between human and non human conservation even if the environmental humanities embrace cities critics must ask whether coalescing the terms sustainability and city may actually obstruct human action to combat climate change which from some angles seems impending self imposed apocalypse to examine the urban turn sustainability and the city attends to culture essays in the first part of the collection approach urban sustainability from various disciplinary vantage points to emphasize history ideology pedagogy and critical theory the second part of the collection analyzes urban commons on four different continents finally the collection moves from a diverse set of interpretations of on the ground urban phenomena to a compilation of readings of sustainability in different media and genres sound art drama fiction and film set in or evocative of cities the collection carves out a place for artists and critics to help realize social justice in cities which generate remarkable power but power that is too often and too easily used destructively unfairly and wastefully despite cities unique capacities to inspire and sustain humanity
