festivals and ceremonials played a major role in the Spanish world through them local identities as well as a common Spanish culture made their presence manifest within and beyond the peninsula through ephemeral displays music and print this book explores Habsburg visual culture at court and its connection with the creation of a language of triumph the relationship between religion and the empire and examines cultural artistic and musical exchange in Naples and Rome taken together these essays contribute further to our growing appreciation of the importance of early modern festival culture in general and their significance in the world of the Spanish Habsburgs in particular

for law students and lawyers to successfully understand and practice law in the U.S. recognition of the wider context and culture which informs the law is essential simply learning the legal rules and procedures in isolation is not enough without an appreciation of the culture that produced them this book provides the reader with an understandable introduction to the ways in which U.S. law reflects its culture and each chapter begins with questions to guide the reader and concludes with questions for review challenge and further understanding Kirk W. Junker explores cultural differences employing history social theory philosophy and language as reference frames which are then applied to the rules and procedures of the U.S. legal system in the book's final chapter through these cultural reference frames readers are provided with a set of interpretive tools to inform their understanding of the substance and institutions of the law with a deeper understanding of this cultural context international students will be

empowered to more quickly adapt to their studies more comprehensively understand the role of the attorney in the u s system draw comparisons with their own domestic legal systems and ultimately become more successful in their legal careers both in the u s and abroad

in the problem of the idea of culture in john paul ii exposing the disruptive agency of the philosophy of karol wojtyla john corrigan provides a new lens with which to view and understand the philosophy of karol wojtyla john paul ii he exposes wojtyla as a major player in contemporary philosophical debates the work reformulates the problem of experience in light of the questions surrounding our idea of culture corrigan argues that for wojtyla the drama of the problem of experience manifests in the apparently divergent accounts of the meaning of human experience as presented by the philosophies of being and of consciousness solving this conundrum results in an idea of the person capable of explaining human experience in relation to human culture unfolding the experiences of self knowledge conscience and the ontic causal relationship of the person to human culture the first part of the book concerns formal considerations regarding the constitutive aspects of wojtyla s approach while the second part deals with pragmatic considerations drawn from his comments on culture

this study of catholicism articulates how theological teachings trickle down from the vatican and influence decisions about food marriage sex community celebrations and medical care

johnston argues that the preemptive first use of nuclear weapons long the foundation of american nuclear strategy was not the carefully reasoned response to a growing soviet conventional threat instead it was part of a process of cultural socialization by which the united states reconstituted the previously nationalist strategic cultures of the european allies into a seamless western community directed by washington building a bridge between theory and practice this book examines the usefulness of cultural theory in international history

an insightful exploration of the nature of inequality in his new work thomas piketty explores how social inequality manifests itself very differently depending on the society and epoch in which it arises history and culture play a central role inequality being strongly linked to various socio economic political civilisational and religious developments so it is culture in the broadest sense that makes it possible to explain the diversity extent and structure of the social inequality that we observe every day piketty briefly and concisely presents a lively synthesis of his work taking up such diverse topics as education inheritance taxes and the climate crisis and provides exciting food for thought for a highly topical debate does natural inequality exist
