from the bestselling author of europe a history comes a uniquely ambitious masterpiece that will thrill fans of lost civilizations while germany italy france and england dominate our conceptions of europe these modern states are relatively recent constructs in this brilliant work of historical reconstruction norman davies brings back to life the long forgotten empire of aragon which once controlled the western mediterranean the grand duchy of lithuania once the largest country in europe and the kingdom of the rock founded by ancient britons when neither england nor scotland existed in the tradition of jared diamond s guns germs and steel davies subverts our established view of the

past and urges us to reconsider the impetus for the rise and fall of nations

the past is a foreign country has become a truism yet the past differs from the present in many unfamiliar ways and historical memory is extraordinarily imperfect the degree to which we think of the european past as the history of france germany britain russia and so on actually obstructs our view of former reality and blunts our sensitivity to the ever changing political landscape europe's past is littered with kingdoms empires and republics which no longer exist but which were some of the most important entities of their day the empire of aragon which dominated the western mediterranean in the thirteenth century the grand duchy of lithuania the largest country in europe for part of the eighteenth century this book shows the reader how to peer through the cracks of mainstream history writing and to catch a glimpse of the five six or seven kingdoms of burgundy how long will it be before the ussr until recently one of the world's two superpowers is wholly or half forgotten as most of these the histories of the lost echo across the centuries mixed in with more familiar sounds one of the purposes of this book is to help us hear them again more clearly and appreciate where they came from as in his earlier celebrated books *Europe and the Isles* norman davies aims to subvert our established view what looks familiar in history and urges us to look and think again this stimulating book full of unexpected stories observations and connections gives us a fresh and original perspective on european history

a historical fantasy set in the backdrop of nalanda and the end of gupta empire depicts the horror of hun invasion and power struggle between smaller kingdoms in an alternate universe bounded by magical reality during the political turmoil a prince vouchsafed to save magadha from foreign invasion with the help of nalanda's intellectual teachers and their secret knowledge of celestial weapons however palace intrigues compelled him to renounce his claim to the throne and he embraced the life of austerity for a greater cause unaware of the baffling power of his enemies the young prince entrapped in the political rivalry of chandraketugarh and found love in an unexpected way

his journey to nalanda unfolded many secrets of the ancient university that changed his destiny forever under the guidance of his mentor eminent alchemist budhaditya he overcame all odds and reached his goal but just before the final battle he faced the dilemma of choosing duty over love this is the first part of a trilogy this story is purely fictional based on imagination not on historical facts and figures any similarities of events or characters in reality is purely coincidental and not made to insult any individual or group
