the criteria for originality priority and authenticity used in textual criticism the study of the synoptic problem and historical jesus research share one basic similarity they were all designed to distinguish a prior tradition from its later developments all these areas of research investigate the transmission process which involves both preservation and alteration the sets of criteria used in one area are thus analogous

to the sets of criteria used in the other two areas this assumption can be confirmed by observing numerous instances of such similarity in these sets of criteria on the basis of this assumption many other instances of similarity may be newly attained by adapting the set of criteria used in one area for use in the other two areas the sets of criteria for these three areas of research can be further generalized into a mother set of criteria which will provide us with a degree of methodological unification in these disciplines

a new definitive c problem solving resource this guide provides programmers with all the tools they need to solve complex and everyday problems quickly including types and declarations pointers overloading derived classes and exception handling

abstracts of journal articles books essays exhibition catalogs dissertations and exhibition reviews the scope of artbibliographies modern extends from artists and movements beginning with impressionism in the late 19th century up to the most recent works and trends in the late 20th century photography is covered from its invention in 1839 to the present a particular emphasis is placed upon adding new and lesser known artists and on the coverage of foreign language literature approximately 13 000 new entries are added each year published with title loma from 1969 1971
