this book focuses on two projects gehry s unrealised proposal for the rehabilitation of berlin s museum island and his soon to be completed disney concert hall in los angeles

most recently gehry s work has experimented with complex forms and sculptural geometries and includes a group of significant cultural projects including the vitra design museum in germany the american center in paris and the frederick r weisman museum at the university of minnesota

frank gehry is one of the late 20th century s most prolific architects his many works include the

aerospace museum in los angeles the vitra museum in germany and the guggenheim museum in bilbao spain this is a study of the architect and his work

an authoritative compendium on the main masterpieces of frank gehry including 480 illustrations and photographs produced in collaboration with cahiers d art experimenting with a range of materials from cheap mass produced items to space age titanium and using 3d computer modeling as an architectural tool frank gehry s buildings are remarkable and surprising united by the sense of movement they convey his projects flow curve bend and crumple in novel and unexpected ways subverting traditional building norms from his own home in santa monica to the undulating beekman tower in new york from the shining curves of the guggenheim museum in bilbao to the fondation louis vuitton in paris and his most recent construction luma arles gehry has left his indelible mark on the history of architectural design forty of the renowned architect s most remarkable works are presented by architect and critic jean louis cohen alongside views of the interiors and exteriors of each building this tour includes many of gehry s works throughout the united states and abroad such as the walt disney concert hall the one of a kind binoculars building in los angeles and the beloved dancing house in prague

frank o gehry born in 1929 founded his own architectural firm in los angeles in 1962 and since the building of the guggenheim museum in bilbao he is undoubtedly among the ranks of international architecture superstars his buildings are complex constructions with curves and distortions skilful plastic shapes which never cease to surprise with their breath taking spatial effects to create these daring designs gehry makes extensive use of the latest electronic tools physical models are transformed into digital models using software and hardware which has been adapted from the space industry and medical research this book provides a colourful insight into gehry s design methods and the creative process behind his fantastic buildings bruce lindsay studied at the yale school of architecture he is now associate head at the school of architecture at carnegie mellon university in pittsburgh usa

chronicles the life and work of the creator of the guggenheim museum in bilbao spain

no building was more anticipated than frank gehry s stunning new museum in bilbao an industrial city in the basque country of northern spain philip johnson the dean of american

architects declared it the greatest building of our time while sverre fehn winner of the 1997 pritzker architecture prize called the building fantastic gehry s use of nontraditional materials and his sensitivity to the environments of his buildings is legendary his method of envisioning a building through semiautomatic drawings and handmade models is little known but provides an immediate entry into his creative process this book celebrates the guggenheim museum bilbao and details its design process bringing to life one of gehry s greatest achievements coosje van bruggen who has collaborated with gehry on various architectural and art projects documents the history of the guggenheim bilbao from conception through design and construction with unique access to the architect and his studio she uncovers scores of fascinating drawings and working photographs published here for the first time

an unprecedented intimate and richly illustrated portrait of frank gehry one of the world s most influential architects drawing on the most candid revealing and entertaining conversations she has had with gehry over the last twenty years barbara isenberg provides new and fascinating insights into the man and his work gehry s subjects range from his childhood when he first built cities with wooden blocks on the floor of his grandmother s kitchen to his relationships with clients and his definition of a great client we learn about his architectural influences including le corbusier and frank lloyd wright and what he has learned from michelangelo rembrandt and rauschenberg we explore the thinking behind his designs for the guggenheim bilbao and the walt disney concert hall the redevelopment of atlantic yards in brooklyn and grand avenue in los angeles the gehry collection at tiffany s and ongoing projects in toronto paris abu dhabi and elsewhere and we follow as gehry illuminates the creative process by which his ideas first take shape for example through early drawings for the guggenheim museum in bilbao when the building s trademark undulating curves were mere scribbles on a page sketches models and computer images provided by gehry himself allow us to see how so many of his landmark buildings have come to fruition step by step conversations with frank gehry is essential reading for everyone interested in the art and craft of architecture and for everyone fascinated by the most iconic buildings of our time as well as the man and the mind behind them

with the recent triumph in bilbao frank gehry became one of the two or three living architects whose names are known outside the field within architecture and the arts however gehry has longstanding and tremendous respect and this conversation with the architectural historian and

getty center founding director kurt w foster testifies to the ways in which gehry s concepts continue to invigorate not just the language of architecture but the arts in general the implicit sculpture of gehry s work reveals a communion between artistic disciplines and he has collaborated with the likes of serra kelley and koons this book furthers that open dialogue which gehry clearly views as essential between the arts

for the first time a book looks at internationally famed architect frank gehry as an artist this intimate portrait of gehry s creative process reveals the details not only of how he works but also of his total staff and office environment among 10 featured projects realized and unrealized are models and drawings for the walt disney concert hall ray and maria stata center at mit jerusalem museum of tolerance corcoran gallery and school of art venice gateway and puente de vida museo there has never been an architectural monograph like this

text in english and german after his deconstructive beginnings in the eighties and nineties frank gehry increasingly practised a very plastic form of architecture his expressively sculptural cultural buildings the vitra design museum in weil am rhein his project for the walt disney concert hall in los angeles and above all the guggenheim museum in bilbao see opus 32 have shaped the architectural awareness of our period and provided exemplary artistic alternatives to the architectural canon of modernism within gehry s rapidly growing volume of work the comparatively small energy forum for the minden ravenburg electricity company emr plays a particularly striking role insofar as the extraordinarily complex brief almost contradictory functions had to be blended in a very cramped space compelled the architect to use highly differentiated forms and materials in this way something like a primal model of sculptural building emerged a massively fissured subtly lit structure that explains itself inside with amazing naturalness making visitors gasp with its changing spatial situations as an exhibition and events centre exploding all conventions as an office building and translating the theme of energy into sensual forms by architectural means as the electricity company s technical distribution centre the old dictum form follows function acquires a new and radical quality in the architecture of the energieforum in addition to the presentation of the energy forum in bad oeynhausen this book contains an illustrated survey of all other buildings by frank gehry in europe

no building has been more anticipated than frank gehry s stunning new guggenheim museum

in bilbao an industrial city in the basque country of northern spain in a cover story for the new york times magazine herbert muschamp wrote of it the word is out that miracles still occur while sverre fehn winner of the 1997 pritzker architecture prize gehry received the award in 1989 stated this building is fantastic this book celebrates the guggenheim museum bilbao and details the design process that is an intrinsic part of gehry s revolutionary approach to architecture gehry s use of nontraditional materials and his sensitivity to the environments of his buildings are legendary his method of envisioning a building through semiautomatic drawings and handmade models is little known but provides an immediate entry into his creative process here stunning color photographs of the building and reproductions of gehry s drawings and models bring to life his greatest achievement to date art historian and artist coosje van bruggen who has collaborated with gehry on various architectural and art projects documents the history of the guggenheim bilbao from conception through design and construction with unique access to the architect and his studio she has uncovered scores of fascinating drawings and working photographs which are published here for the first time

introduces the career and works of the american architect whose innovative designs include the guggenheim museum in bilbao spain and the walt disney concert hall in los angeles california

friedman documents gehry s work from 1988 to the present tracing his evolution from a southern california architect known for his idiosyncratic use of materials to an international figure who is redefining modernism with his sculpturally expressionistic work 350 illustrations 200 in color

a selective retrospective of frank o gehry s most important designs includes essays detailing his use of technology and diverse materials and of light form and sculpture provided by publisher

one of the great architects of our time frank gehry has revolutionized the use of materials in design and redefined how architects use computers as a design tool to advance form making as we know it he has achieved worldwide fame for such large scale public projects as the guggenheim museum in bilbao spain and the walt disney concert hall in los angeles california but it was in private houses that gehry first explored and interrogated the principles of modern

architecture in these houses most notably his own in santa monica california gehry distorted expanded and collapsed the modernist box exploring everyday materials corrugated metal unfinished plywood and chain link experimenting with color and challenging accepted notions about geometry and structure in houses such as the schnabel house in brentwood california and the winton guest house in wayzata minnesota he experimented with collage and assemblage more recently gehry s work has taken on sculptural forms aided by new structural and geometric potentials of digital design as in the near legendary lewis house in lyndhurst ohio color photographs sketches and plans create an illuminating visual record of some of the most groundbreaking seminal projects of gehry s oeuvre
