lesson plan from the year 2008 in the subject english pedagogy didactics literature studies grade 1 7 uni jena de anglistisch amerikanistisches institut course proseminar transatlantic e mail exchange language english abstract the wave is a movie based on real circumstances a history teacher in the usa tried to answer the questions of his students why was it possible that the national socialists could move a whole nation to war why did the germans not stop the killings in the concentration camps and why did most of them not know what was happening there is a dictatorship like the one of hitler in germany possible again in modern times to answer these questions the teacher made an experiment to show the students what a dictatorship is about
