police cars are usually very visible in our society advertising the important role of police and much loved by children the role of the police is to enforce the law to ensure the safety health and possessions of citizens and to prevent crime and civil disorder french police is organised in two national bodies police nationale for cities with 5 000 inhabitants and up and the gendarmerie for the smaller communities and assisting the police national when required the pictures are organized according to region with paris as a separate entry the authors have made a similar book on american police cars and the styles are quite different between the two countries we hope you will enjoy our selection of photos

singapore s best homegrown car magazine with an editorial dream team driving it we fuel the need for speed

ever wondered what it takes to bring a successful modern car to market this book gives a rare glimpse inside the automotive industry through the development stories of three very different but highly significant vehicles the nissan qashqai the renault zoe and the multi award winning alpine a110 sports car

singapore s best homegrown car magazine with an editorial dream team driving it we fuel the need for speed

a key text examining the theory and strategy of marketing in a global context this acclaimed text uses academic rigour rather than anecdotal evidence the new edition features key new data updated case studies and a revised companion website

traditionally the study of internal combustion engines operation has focused on the steady state performance however the daily driving schedule of automotive and truck engines is inherently related to unsteady conditions in fact only a very small portion of a vehicle s operating pattern is true steady state e g when cruising on a motorway moreover the most critical conditions encountered by industrial or marine engines are met during transients too unfortunately the transient operation of turbocharged diesel engines has been associated with slow acceleration rate hence poor driveability and overshoot in particulate gaseous and noise emissions despite the relatively large number of published papers this very important subject has been treated in the past scarcely and only segmentally as regards reference books merely two chapters one in the book turbocharging the internal combustion engine by n watson and m s janota mcmillan press 1982 and another one written by d e winterbone in the book the thermodynamics and gas dynamics of internal combustion engines vol ii edited by j h horlock and d e winterbone clarendon press 1986 are dedicated to transient operation both books now out of print were published a long time ago then it seems reasonable to try to expand on these pioneering works taking into account the recent technological advances and particularly the global concern about environmental pollution which has intensified the research on transient diesel engine operation typically through the transient cycles certification of new vehicles
