celebrations of literary fictions as autonomous worlds appeared first in the renaissance and were occasioned paradoxically by their power to remedy the ills of history robert e stillman explores this paradox in relation to philip sidney s defence of poesy the first renaissance text to argue for the preeminence of poetry as an autonomous form of knowledge in the public domain offering a fresh interpretation of sidney s celebration of fiction making stillman locates the origins of his poetics inside a neglected historical community the intellectual elite associated with philip melanchthon leader of the german reformation after luther the so called philippists as a challenge to traditional anglo centric scholarship his study demonstrates how sidney s education by continental philippists enabled him to dignify fiction making as a compelling form of public discourse compelling because of its promotion of powerful new concepts about reading and writing its ecumenical piety and its political ambition to secure through natural law from universal ideas freedom from the tyranny of confessional warfare intellectually ambitious and wide ranging this study draws together various elements of contemporary scholarship in literary religious and political history in order to afford a broader understanding of the defence and the cultural context inside which sidney produced both his poetry and his poetics

we live in a world where our livelihood depends on our ability to relate to strangers the central quality that defines strangers is that they are unknown because strangers are unknown they represent in the world outside the unknown self within the unknown self is the core of the personality considered as a potential to become something yet to be determined to be already known is to be determined prior to and independently of our presence in our lives at the outset of the process of taking form the individual is in a sense a stranger to self and to others the more this is the case the greater the openness of the process of self formation and the more marked the role of freedom from predetermination in that process freedom from predetermination exists along three dimensions the free movement of thoughts and ideas or inner freedom the freedom to relate which is also the freedom not to relate and freedom in relating which is the possibility of maintaining secure self boundaries in relations with others in

exploring freedom understood in this way professor levine considers such topics as the nature of inner freedom and its relationship to deliberation and choice stranger anxiety and its connection to group dynamics and social connection the internal factors that enable us to make the decisions that shape our lives and through our actions realize the ends embedded in our decisions how our memories shape our thought processes and therefore the choices we make and the lives we lead that result from them what makes it possible for us to live comfortably with and depend on people we do not know concern for the welfare of strangers and how our welfare can be secure in a world where we do not care about others and they do not care about us

in 1993 the world celebrated the 2500th anniversary of the birth of democracy in ancient athens whose polis or citizen state is often viewed as the model ancient greek state in an age when democracy has apparently triumphed following the collapse of communism in eastern europe we tend to forget that the democratic citizen state was only one of many forms of political community in greek antiquity this volume originally a seminar series at the universities of leeds and manchester aims to redress the balance eighteen essays by established and younger historians examine alternative political systems and ideologies oligarchies monarchies mixed constitutions along with diverse forms of communal and regional associations such as ethnoi amphiktyonies and confederacies the papers which span the length and breadth of the hellenic world from the balkans and anatolia to magna graecia and north africa highlight the immense political flexibility and diversity of ancient greek civilization
