had managed to build a thriving and productive world out of what had originally been intended as a slave planet and now they had plans to try and overthrow the terrible eosi who for centuries had existed by subsuming members of the catteni race living in their bodies and ruling space through them and the botanists had received mysterious and unexpected help from the great beings they knew only as farmers for the farmers had thrown a huge impervious space bubble round botany even as the eosi ships tried to pulverise the rebellious planet the bubble held firm but safe though they were behind the protective device kris bjornsen zainal and all of the council knew they had to go out and destroy the eosi on their own ground it fell to zainal to risk his life in a desperate and daring mission to vanquish the monster life forms forever

as a huge larder for an entity they could not comprehend as kris and her patrol set out to explore the enigmatic world she had yet another problem to contend with the presence of zainal the high ranking patrician catteni who had been abandoned with the rest of them zainal was strong brilliant and kind and kris was puzzled by his presence his personality and above all by the tenuous tie she felt towards him

in freedom s landing a galactic invasion forced thousands of humans to colonize a new planet in freedom s choice human kris bjornsen and her comrades found new hope for rebellion now in freedom s challenge kris and her catteni lover zainal prepare to face danger and pain in the final fight for liberty

victims subject to the mighty and terrifying eosi race who used the catteni as a galactic police force and also used them in more grisly and horrifying ways but the question remained to whom did botany really belong who had created the giant grain sheds and the mammoth machinery that tilled the great fields the new inhabitants of botany called them the farmers and waited for the day they would come to harvest their crops and when that happened the refugees were awed into silence for the farmers were greater than anything the universe had ever seen

let anne mccaffrey storyteller extraordinaire and new york times and sunday times bestselling author open your mind to new worlds and new concepts worlds where humans are the slaves of aliens and survival is something that must be fought for perfect for fans of david eddings brandon sanderson and douglas adams anne mccaffrey one of the queens of science fiction knows exactly how to give her public what it wants the times i could not put the books down until i had read all four reader review very gripping reader review anne mccaffrey is a super talent reader review impossible to put down reader review the inhabitants of the penal planet botany had fought a grim and dangerous war to free themselves from their eosi overlords now the eosi were gone and both botany and earth were free again free but in serious trouble as the theft of all their communications satellites by the catteni working for their eosi masters had left them isolated and in a desperate situation hoping that everything stolen from them would be returned they found that catteni greed had triumphed the merchants of barevi refused to give up the stolen goods unless a substantial ransom was paid earth was in a particularly bad way disease vandalism starvation and the breakdown of their mechanical world had left its people fighting for survival they desperately needed the goods the barevi were hoarding and so zainal kris and a courageous team from botany set off to try and outwit the thieving merchants it was an expedition that led to a horrifying replay of an old nightmare for kris and only zainal could save her and the future of both earth and botany

kris bjornsen has come a long way since alien slave ships scooped her up in denver with thousands of others dropped off on an apparently uninhabited world with the rest she has fallen in love with zainal a renegade catteni and made a comfortable life for herself and her new family but she feels a soldier s duty to escape botany and rejoin the struggle for freedom as the eosi overlords continue to drop captives on botany the colonists learn that there are freedom fighters on every captured world and earth is full of pockets of resistance there are even rebels among the warlike catteni now the colonists have the technology they need to go back to war with the deadly eosi with a surprise strike at the enslaved planet earth itself
