author and existing literature on language culture and identity what makes this book stand out is the way in which authors meld traditional academic approaches to inquiry with their own personalized voices this opens a window on different ways of viewing and doing research in applied linguistics and tesol what gives the book its power is the compelling nature of the narratives themselves telling stories is a fundamental way of representing and making sense of the human condition these stories unpack in an accessible but rigorous fashion complex socio cultural constructs of culture identity the self and other and reflexivity and offer a way into these constructs for teachers teachers in preparation and neophyte researchers contributors from around the world give the book broad and international appeal

the book presents a new theory of the relationship between language and culture in a transnational and global perspective the fundamental view is that languages spread across cultures and cultures spread across languages or in other words that linguistic and cultural practices flow through social networks in the world along partially different paths and across national structures and communities

includes brief mention of aboriginal languages and culture

language not only expresses identities but also constructs them starting from that point language and identity examines the interrelationships between language and identities it finds that they are so closely interwoven that words themselves are inscribed with ideological meanings words and language constitute meanings within discourses and discourses vary in power the powerful ones reproduce more powerful meanings colonize other discourses and marginalize or silence the least powerful languages and cultures language and culture death occur in extreme cases of marginalization this book also demonstrates the socio economic opportunities offered by language choice and the cultural allegiances of language where groups have been able to create new lives for themselves by embracing new languages in new countries language can be a double edged sword of opportunity and marginalization language and identity argues that bilingualism and in some cases multilingualism can both promote socio economic opportunity and combat culture death and marginalization with sound theoretical perspectives drawing upon the work of bakhtin vygotsky gumperz foucault and others this book provides readers with a rationale to redress social injustice in the world by supporting minority linguistic and cultural identities and an acknowledgement that access to language can provide opportunity

in this book andrew j strathern and pamela j stewart delineate the relationship between language in particular and culture in general by focusing on language as both social practice and a means of classifying and interpreting the world a traditional linguistic approach to a focus on language is illuminated by their anthropological emphasis on the embodiment of relationships and experience in the book the body is placed in the foreground for understanding language in culture which helps in turn to understand how it enables us to adapt to the world of lived material experience written in an accessible style and drawing on an extensive corpus of primary field research from papua new guinea samoa japan taiwan scotland and ireland strathern and stewart present a world anthropology which links together european north american and asia pacific approaches to the topic students and scholars alike of sociocultural anthropology linguistic anthropology and linguistics will benefit from this engaging work on how the various components of our culture are informed and shaped through language

this is an interdisciplinary volume that focuses on the central topic of the representation of events namely cross cultural differences in representing time and

space as well as various aspects of the conceptualisation of space and time it brings together research on space and time from a variety of angles both theoretical and methodological crossing boundaries between and among disciplines such as linguistics psychology philosophy or anthropology forms a creative platform in a bold attempt to reveal the complex interaction of language culture and cognition in the context of human communication and interaction the authors address the nature of spatial and temporal constructs from a number of perspectives such as cultural specificity in determining time intervals in an amazonian culture distinct temporalities in a specific mongolian hunter community russian specific conceptualisation of temporal relations seri and yucatec frames of spatial reference memory of events in space and time and metaphorical meaning stemming from perception and spatial artefacts to name but a few themes the topic of space and time in language and culture is also represented from a different albeit related point of view in the sister volume space and time in languages and cultures linguistic diversity hcp 36 which focuses on the language specific vis à vis universal aspects of linguistic representation of spatial and temporal reference

this collection of thirteen essays examines sociolinguistic phenomena in a wide variety of marginal environments providing both an overview of globalizaiton on the margins and a foundation for an expanded understanding of the processes of linguistic and cultural changes at work in these settings taking an expansive conceptual view of margins the volume is organized in three parts looking at examples of marginal spaces in the nation state in online environments and in the peripheries of urban locations globally to call attention to new and changing discursive genres patterns practices and identities emerging in these spaces as a result of contemporary mobilities the evolving global economy and socio political changes with previous research previously confined to the study of globalization in urban areas this volume opens the door for further research on the complex sociolinguistic processes resulting from globalization on the margins making this an ideal resource for students and scholars in sociolinguistics globalization and heritage studies new media anthropology and cultural studies the open access version of this book available at taylorfrancis com has been made available under a creative commons attribution cc by

how do we make sense of our experience in order to understand how we construct meaning the varied and complex relationships among language mind and culture need to be understood while cognitive linguists typically study the cognitive aspects of language and linguistic anthropologists typically study language and culture language mind and culture is the first book to combine all three and provide an account of meaning making in language and culture by examining the many cognitive operations in this process in addition to providing a comprehensive theory of how we can account for meaning making language mind and culture is a textbook for anyone interested in the fascinating issues surrounding the relationship between language mind and culture further the book is also a practical introduction most of the chapters include exercises that help the student understand the theoretical issues no prior knowledge of linguistics is assumed and the material is accessible and useful to students in a variety of other disciplines such as anthropology english sociology philosophy psychology communication rhetoric and others language mind and culture helps us make sense of not only linguistic meaning but also of some of the important personal and social issues we encounter in our lives as members of particular cultures and as human beings

this is a core introduction to the most innovative and influential writings to have shaped and defined the relations between language culture and cultural identity

the teaching of culture and interculturality is today viewed as an integral part of foreign language education this book presents insights from recent research on the role of culture in second foreign and heritage language education it contains 14 chapters including an introductory chapter that discusses diachronically the evolving notion of culture and how the sociocultural view of culture as a complex and dynamic concept informs language teaching and language learning research the chapters following the introduction are organised in four parts focusing on 1 the teacher s role in integrated language and culture learning 2 the interrelationship between culture identity and language learning and use 3 the effect of culture on learner characteristics which impact language learning processes and outcomes and 4 curriculum development aimed at fostering language and culture learning the chapters in parts 1 to 3 present contributions from current research either in the form of the authors original studies or comprehensive reviews of relevant essential research which bears important implications for curricular practice in foreign language and language teacher education this close link between research theory and practice is also maintained in the two chapters in part 4 which present developmental projects based on well grounded theoretical frameworks

a bold and provocative study that presents language not as an innate component of the brain as most linguists do but as an essential tool unique to each culture worldwide for years the prevailing opinion among academics has been that language is embedded in our genes existing as an innate and instinctual part of us but linguist daniel everett argues that like other tools language was invented by humans and can be reinvented or lost he shows how the evolution of different language forms that is different grammar reflects how language is influenced by human societies and experiences and how it expresses their great variety for example the amazonian pirahã put words together in ways that violate our long held understanding of how language works and pirahã grammar expresses complex ideas very differently than english grammar does drawing on the wari language of brazil everett explains that speakers of all languages in constructing their stories omit things that all members of the culture understand in addition everett discusses how some cultures can get by without words for numbers or counting without verbs for to say or to give illustrating how the very nature of what s important in a language is culturally determined combining anthropology primatology computer science philosophy linguistics psychology and his own pioneering and adventurous research with the amazonian pirahã and using insights from many different languages and cultures everett gives us an unprecedented elucidation of this society defined nature of language in doing so he also gives us a new understanding of how we think and who we are
