terrorism is an extreme form of radicalization in this ground breaking and important book clark mccauley and sophia moskalenko identify and outline twelve mechanisms of political radicalization that can move individuals groups and the masses to increased sympathy and support for political violence co authored by two psychologists both acknowledged in their field as experts in radicalization and consultants to the department of homeland security and other government agencies friction draws on wide ranging case histories to show striking parallels between 1800s anti czarist terrorism 1970s anti war terrorism and 21st century jihadist terrorism altogether the twelve mechanisms of political radicalization demonstrate how unexceptional people are moved to exceptional violence in the conflict between states and non state challengers in this revised and expanded edition mccauley and moskalenko use the twelve mechanisms to analyze recent cases of lone wolf terrorists and illustrate how individuals can become radicalized to jihadist violence with group influence or organizational support additionally in the context of the

islamic state s worldwide efforts to radicalize moderate muslims for jihad they advance a model that differentiates radicalization in opinion from radicalization in action and suggest different strategies for countering these diverse forms of radicalization as a result the authors conclude that the same mechanisms are at work in radicalizing both terrorists and states targeted by terrorists implying that these conclusions are as relevant for policy makers and security officers as they are for citizens facing the threat of terror today

recent events including the rise of the islamic state and its overt recruitment of western women have once again brought the issue of women participating in terrorist organizations to the forefront yet much remains to be understood about why women join terrorist organizations and why groups choose to incorporate them into their structures and operations women in modern terrorism which draws from a unique dataset compiled over a decade tackles these questions and analyzes women s inclusion in terrorist organizations since the beginning of modern terrorism covering both religious and ethno nationalist terrorism and conflict the text opens with a discussion of the definition of terrorism before examining key issues such as how and why women join terrorist groups what women s inclusion in terrorist organizations reveals about the nature and longevity of both the groups and the conflicts the future of women s role in terrorist organizations and attacks particularly given the rise of new terrorist groups in syria and iraq and the types of attacks women perpetrate and how they compare across groups by looking at case studies including hizballah chechnya the liberation tigers of tamil eelam al qaeda boko haram al shaabab and more this text shows that women s inclusion in various terrorist organizations is largely a pragmatic choice by the group it also highlights the cross pollination of ideas between differently motivated groups all these issues along with the role of the media and the internet in radicalization and recruitment processes are explored to provide an exhaustive account of the many roles for women in terrorist groups today

this timely special issue looks at a current pressing societal challenge that is truly global in its existence but very local in the way it plays out in various geographical social and political contexts terrorism and extremism are undoubtedly among the biggest problems the world is facing today and is leaving in its wake a trail of death and destruction where the human and social costs are perhaps more significant than wars fought between countries on the world stage these realities breed suspicion hatred and feelings of revenge and invariably result in a spiral of violence that seemingly has no end not only is there a need to explore the various factors leading to violent youth radicalisation it is clear that young people need to be considered not as victims at risk but rather as responsible agents of positive change this issue focuses on violent youth radicalisation in the context of professor gavrielides the youth empowerment and innovation project yeip

which looked at the problem of violent youth radicalisation across seven european countries the project sought to propose a uniquely different way of combatting violent youth radicalisation by proposing an alternative to punitive means so often favoured by governments that alternative proposed was to use positive psychology and the good lives model to intervene with young people at risk of violent radicalisation focusing on positive identity and well being on the premise that young people who had a positive view of themselves would be less likely to be drawn into violent radicalisation doi 10 13140 rg 2 2 22734 33606 isbn 978 1 911634 22 5 journal issn online 2056 2985

a former department of homeland security analyst takes a long view on the domestic terrorism threat from radicalized individuals and hate groups of various ideologies america is a land in which extremism no longer belongs to the country s shadowy fringes but comfortably exists in the national mainstream that is the alarming conclusion by intelligence analyst daryl johnson an expert on domestic extremism with more than twenty five years of experience tracking radicalized groups for the us government in this book johnson dissects the rapidly expanding forms of american hatred and radicalization including white nationalists antigovernment militias antifascists antifa militant black nationalists and extremist islamic groups the author develops a concise model that

explains how extremists on both the far right and the far left use the same techniques to recruit and to radicalize individuals turning them into violent offenders he also examines the political forces that fuel this threat and have kept the us government from properly identifying and developing countermeasures to deal with it including a disproportional emphasis on islamic terrorism johnson concludes by recounting individual stories of deradicalization each of which was the result of personal reevaluations of formerly held extremist convictions he recommends more resources at the state and federal levels for combatting radical movements and urges greater communication and coordination between law enforcement agencies this in depth analysis of a growing menace that has taken america hostage throws a stark light on the darkest segments of american society and provides practical means for dealing with their violent threats
