this volume represents the first effort to present and teach the descriptive processes

philosophy and values developed at the prospect archives and center for education and research in north bennington vermont through story and essay it introduces a disciplined collaborative method for understanding children as thinkers and learners called the descriptive review of the child developed through the prospect center under the leadership of patricia f carini the descriptive review is a mode of inquiry that draws on the rich detailed knowledge teachers and parents have of children and on their ability to describe those children in full and balanced ways so that they become visible as complex persons with particular strengths interests and capacities in an educational climate that calls increasingly for standardization this book is a timely resource for educators parents and administrators who value individual human capacity

the history of east central southeastern and eastern europe may be considered as alternating between a marxist emphasis on rigid differences between antiquity and the middle ages largely derived from distinctive modes of production and a preoccupation with borders ethnicity and personalities this volume examines a number of economic problems that highlight the limits of the current interpretative models such as the existence of markets or the relation between trade and gift giving largely on the basis of the archaeological evidence from the eastern parts of the european continent in addition four other chapters address critically such issues as the images of charlemagne in east central europe and of the vlachs in the french crusade chronicles linear frontiers as well as the significance of st christopher in teutonic prussia medieval europe from another angle will appeal to scholars and students alike studying late antiquity and the early middle ages with an interest in material culture and its use in building ethnic boundaries it covers a wide geographical area from iberia to the baltic region

true emotions discusses several key problems in emotion research the question about the true nature of emotions focuses on the role of cognition in human emotions at different levels of analysis functional role types of processes and representations and neural implementation truth to the self or authenticity has two meanings psychological and normative where the latter is analyzed as coherence between the evaluative content of an emotion and the subject's internally justified beliefs and values truth to the world is argued to be a matter of correct evaluative representation of the emotional object on the one hand and the existence of the object or the actuality or accurate probability of the represented situation on the other hand finally authenticity and truth are applied to analyses of the authenticity of occupational emotions and the constitution of sentimental values respectively recommended reading for philosophers psychologists sociologists and gender researchers
