i m fascinated with ancient history because there are continuous new discoveries which push back the dawn of civilization by thousands of years in the last couple of decades the discoveries at gobekli tepe in eastern turkey pushed back man made structures to the time period of 9 000 11 000 b c thousands of years before the next know civilizations existed this book includes my research on ancient sites around the world underground structures giants the destruction of civilization about 10 500 b c the real atlantis and out of place objects which can be millions of years old with this collection of a wide variety of information i decided that what is needed is a full timeline of intelligent life on earth from millions of years ago to the present there are a lot of gaps in this information but enough records findings and discoveries exist to propose an initial timeline of intelligent life on earth going back hundreds of millions of years yes i m saying intelligent life has existed on earth that long and since humanity and even primates don t exist in those times at all aliens must have lived on the earth at that time there are three parts to this book part one millions of years ago this includes stories of aliens existing on earth in our history and many out of place objects made by intelligent beings and the fossil record which provides supporting evidence that intelligent life did exist at those times part two the unknown civilizations of man here we have evidence of structures built by man but way before any accepted records that civilization or man made constructions existed some of these things may go back 100 000 years ago part three post ice age civilizations this part includes evidence that the younger dryas event was actually comets striking the earth which caused major disasters and probably the destruction of civilizations about 10 500 b c my intention is that this timeline will provide a skeleton of mankind and intelligent life s early history on earth which can be filled in overtime to become much more detailed and prove the truth of this point of view to skeptics worldwide

thousands of books are written on diets but not many if any on how the longest lived communities in the world live and what they actually eat this book is a study of the lifestyles and diets of the four longest lived communities in the world all of these locations have a higher proportion of centenarians and super centenarians per hundred thousand of population as well as many persons who live to their 130s 140s and even older the longevity communities in this book are okinawa japan the republic of abkhazia next to southern russia vilcabamba ecuador hunza people of northern pakistan lots of information is also provided about the lifestyles of these localities and other longevity factors are elaborated on too we also provide some diet and lifestyle steps to get you started on losing weight and improving your health starting today come join us as we learn more about how we should live and eat to optimize long term health through the best lifestyles and diets

the thesis of this book is that there was a civilization of intelligent beings existing on earth over 300 million years ago i previously collected information to write two books on out of place artifacts oopas and a book on giants which evidence shows lived on this earth millions of years ago while writing my book titled the history of intelligent life on earth from millions of years ago till present and generating a timeline on ancient oopas found around the earth i found an interesting pattern it turns out that a large number of these objects were from around 300 million years ago mostly in coal mines and seams all of these objects from the same time period provide good circumstantial evidence that a worldwide civilization existed at that time given the millions of years which have elapsed since then we are lucky to find even the few oopas we have records of which were preserved in coal and rock in this book i put together the evidence and do my best to answer questions like what did the world look like then what were the attributes and culture of this society what types of beings were part of this civilization and other relevant questions it may be hard to believe that intelligent life existed back then but we need to be objective to follow where the evidence takes us

i ve written quite a few books about spirituality and my experiences and beliefs in our abilities to expand our consciousness through spiritual development practices meditation and the paranormal this book includes my experiences with paranormal abilities acquired from the spiritual development process and different enlightenment experiences having been raised in a technical family and gone to engineering school my perspective is pretty unique since i developed both traditional technical knowledge of the world while i was also going through the spiritual development and enlightenment process there are many engineers and scientists who are also

religious but i ve found that technical people who are as deeply into spiritual enlightenment practices and paranormal experiences are pretty rare what i ve found is that this dual background has given me more clarity about the world we live in and better objectivity in many cases regarding strange or unusual phenomena the theme of this book is to review how i went through this dual track system of learning in my life to become both a traditional engineer and to have fairly adept knowledge of spiritual and paranormal experiences

in today s world we live in a culture of truth suppression this is true in representative democracies like the united states as well as full totalitarian dictatorships like communist china this book covers many areas of major lies like global warming perverted doctrines taught in schools politics news suppression communist china limitations in spirituality deficit spending and problems with globalism there are many different types of truth suppression and as much as we would like to think that we live in an advanced culture and world this effort by different entities to suppress truth affects our lives negatively in many ways the most direct effect is that we live in fear of the future of our world which is a big lie this suppression also keeps us from fully realizing our spiritual natures and that we do have the ability to accomplish amazing things when we live with full honesty in our lives i believe that individuals are closest to a state of happiness when they live their lives in truth see my book a new paradigm of truth and happiness for more information there are actions we can take to correct this situation but they are mass actions which need many persons involved to have a real effect a list of these actions are given later in this book

what are god like powers abilities these are the abilities of the human spirit which are supposed to be impossible but which really exist the abilities and powers reviewed in this book include telepathy psychokinesis levitation invisibility invulnerability teleportation creating your future prophecy omniscience and much more why a book on this subject i ve read about these abilities over the years in many different books and articles as well as my own experiences and thought that others might want to learn about them in one organized encyclopedia of the subject why is this book worthwhile this book will help the reader understand what is the basis for these powers before going into a full review of each one like most of my books i take the reader through some background material before i get into the meat of the subject in this case we start by reviewing the original source of god like abilities the yoga sutras of patanjali and how these abilities and powers work then i provide an introduction to meditation and stillness practices and how they

help the seeker to get in touch with their own spirit after that we proceed into a discussion of the vital forces or prana the energy body and what that energy is used for what will i learn about these powers and abilities in each of the chapters on individual powers and abilities i start by explaining what the ability is and how it has been used in the past then some historical and or modern documented experiences of the ability or power is given finally i provide exercises and practices to learn these abilities for yourself i m not going to claim that anyone can learn these abilities and powers right away but a clear path is provided on how to get there reference materials to other books and sources which can help you learn more are also provided this includes links in the electronic versions of the book and a detailed bibliography or sources

giants have existed on the earth for most of earth s history we are talking about going back hundreds of millions of years there were also many giants on earth in historical times when human civilization existed there are even credible stories of giants existing on earth in the present era such as one killed by us soldiers in the mountains of afghanistan north america has had many sightings and there are stories of wars with giants from the american indians as well stories of cannibalistic giants who were killed by indians in a cave many historical figures such as king og and gilgamesh were also purported to be giants goliath from the bible may also have been from a tribe of giants at the time giants are much more involved in our history and the building of ancient megalithic structures than we give them credit for they probably originated from an alien race you should read this book to learn more about this unusual aspect of human and world history

education for life a european strategy critiques the educational system in european countries and offers suggestions for its improvement as well as solutions for its problems the book is divided into six parts part i deals with topics such as the revitalization of education the cooperation of industry and education and the training of some companies part ii is concerned with the present trends major issues the thrust of positive action and industry involvement in the education of the youth part iii talks about the higher education in europe its comparison with other educational syst
